

# Invisibles23 Workshop

## Tuesday 29 August 2023

### Sixth Session (11:00 - 12:30)

| time  | [id] title   | presenter                   |
|-------|--|-----------------------------|
| 11:00 | [66] Atom interferometry for detecting GWs and dark matter                         | ELLIS, Jonathan R.          |
| 11:30 | [67] YSF IV  |                             |
|       | - [1] Cannibal dark matter decoupled from standard model: cosmological constraints | Mr GOPE, Sourav             |
|       | - [2] IR/UV flavour connection in axion models                                     | PONCE DIAZ, Xavier          |
|       | - [3] Shedding light on the $\Delta m^2_{21}$ tension with supernova neutrinos     | HAJJAR MUÑOZ, Rasmi Enrique |
|       | - [4] Strongly-interacting Dark Sector Phenomenology                               | HEMME, Noline Krogh         |
| 12:00 | [68] QCD axion sum rule  | RAMOS, Maria                |
