- ✓ More than 150,000 physicists have visited ICTP from all over the world
- ✓ Trieste is the city with the highest density of researchers in Europe
- ✓ Trieste was the European City of Science 2020
- ✓ Hosts the National synchrotron radiation facility (Elettra)
- ✓ The largest national Science Park

FONDAZIONE INTERNAZIONALE TRIESTE

per il Progresso e la Libertà delle Scienze

IUPAP General Assembly 1984 at ICTP

FONDAZIONE INTERNAZIONALE TRIESTE

per il Progresso e la Libertà delle Scienze

The Trieste International Foundation for Scientific Progress and Freedom (FIT)

- Created in 1988 by Abdus Salam to promote and support the development, freedom and dissemination of science, and its peaceful applications.
- FIT is a private-law entity regulated by statute and bylaws. Its legal status is recognized by the Italian Ministry of Education (*with no restriction on any country, Taiwan included*).
- Members: most Trieste-based scientific institutions, including ICTP, SISSA, TWAS, University of Trieste, the “Elettra” synchrotron radiation facility, etc.
- FIT has organized ESO2020, Trieste European City of Science, and is now in charge of A Laboratory on quantitative sustainability (TLQS)
- FIT has signed on 2021 MoU with IUPAP, extended to 2026

FONDAZIONE INTERNAZIONALE TRIESTE

per il Progresso e la Libertà delle Scienze

FIT and IUPAP

In 2021 IUPAP moved its **administrative offices** in Trieste, maintaining an office and a discussion room at the second floor of *Sottostazione elettrica* of *Porto Vecchio*.

IUPAP events held in Trieste:

2021: General Assembly

2022: IUPAP Centenary (with EC&CC and GA)
