

Review of Day 1

Ec & CC 20231004

Welcome

- 100th anniversary of IUPAP 1st GA: do more?
- In memory of Kennedy Reed: do more

Good attendance but some issues to be explored

- Many affiliated commissions not present: reflect more on relationship with AC
- Many working groups not present: reflect more on the relationship with Working groups

Administration of IUPAP (Thanks Gabriella, Stefano and Jens)

- To Do list of previous meeting is useful
- Close Singapore at the right time
- Keep FIT running as it is: stabilization!
- Consolidate the association (audit)
- Good archiving is still an issue

IUPAP membership (Thanks Nithaya)

- Keep in contact with members (dedicated committee?)
- Keep in close contact with members with dues in arrear
- Associate territorial members statute: articles: ... individuals from ATMs may be coopted as associated members of commissions
- Conclude with Nepal, pursue with others
- Work with Africa: countries, clusters to become first ATM and then members

Conferences

- Good discussion, thanks to Rudzani
- Openness (no territory excluded), inclusiveness, no harassment, make IUPAP known
- Issue of registration fees: limit on registration fee for accessibility or different classes of registration fees → low fees for developing countries, students .. Travel grants for developing countries, EC awarded, women. **Come with a resolution**
-
- **Resolutions on conference fees and ample participation. Silvina**
- **The following Resolution is to replace Resolution No. 3 approved by the 24th IUPAP General Assembly held in Berlin, Germany, in 2002.**
- To ensure that IUPAP supported conferences (sponsored and endorsed) are accessible to physicists at all stages of their careers and from all groups and countries, IUPAP requires that there should either be affordable registration fee categories or support in other ways to facilitate participation. The Executive Council will establish yearly the maximum allowed fee for the affordable categories.
