To: - experiments' spokes
- lab directors

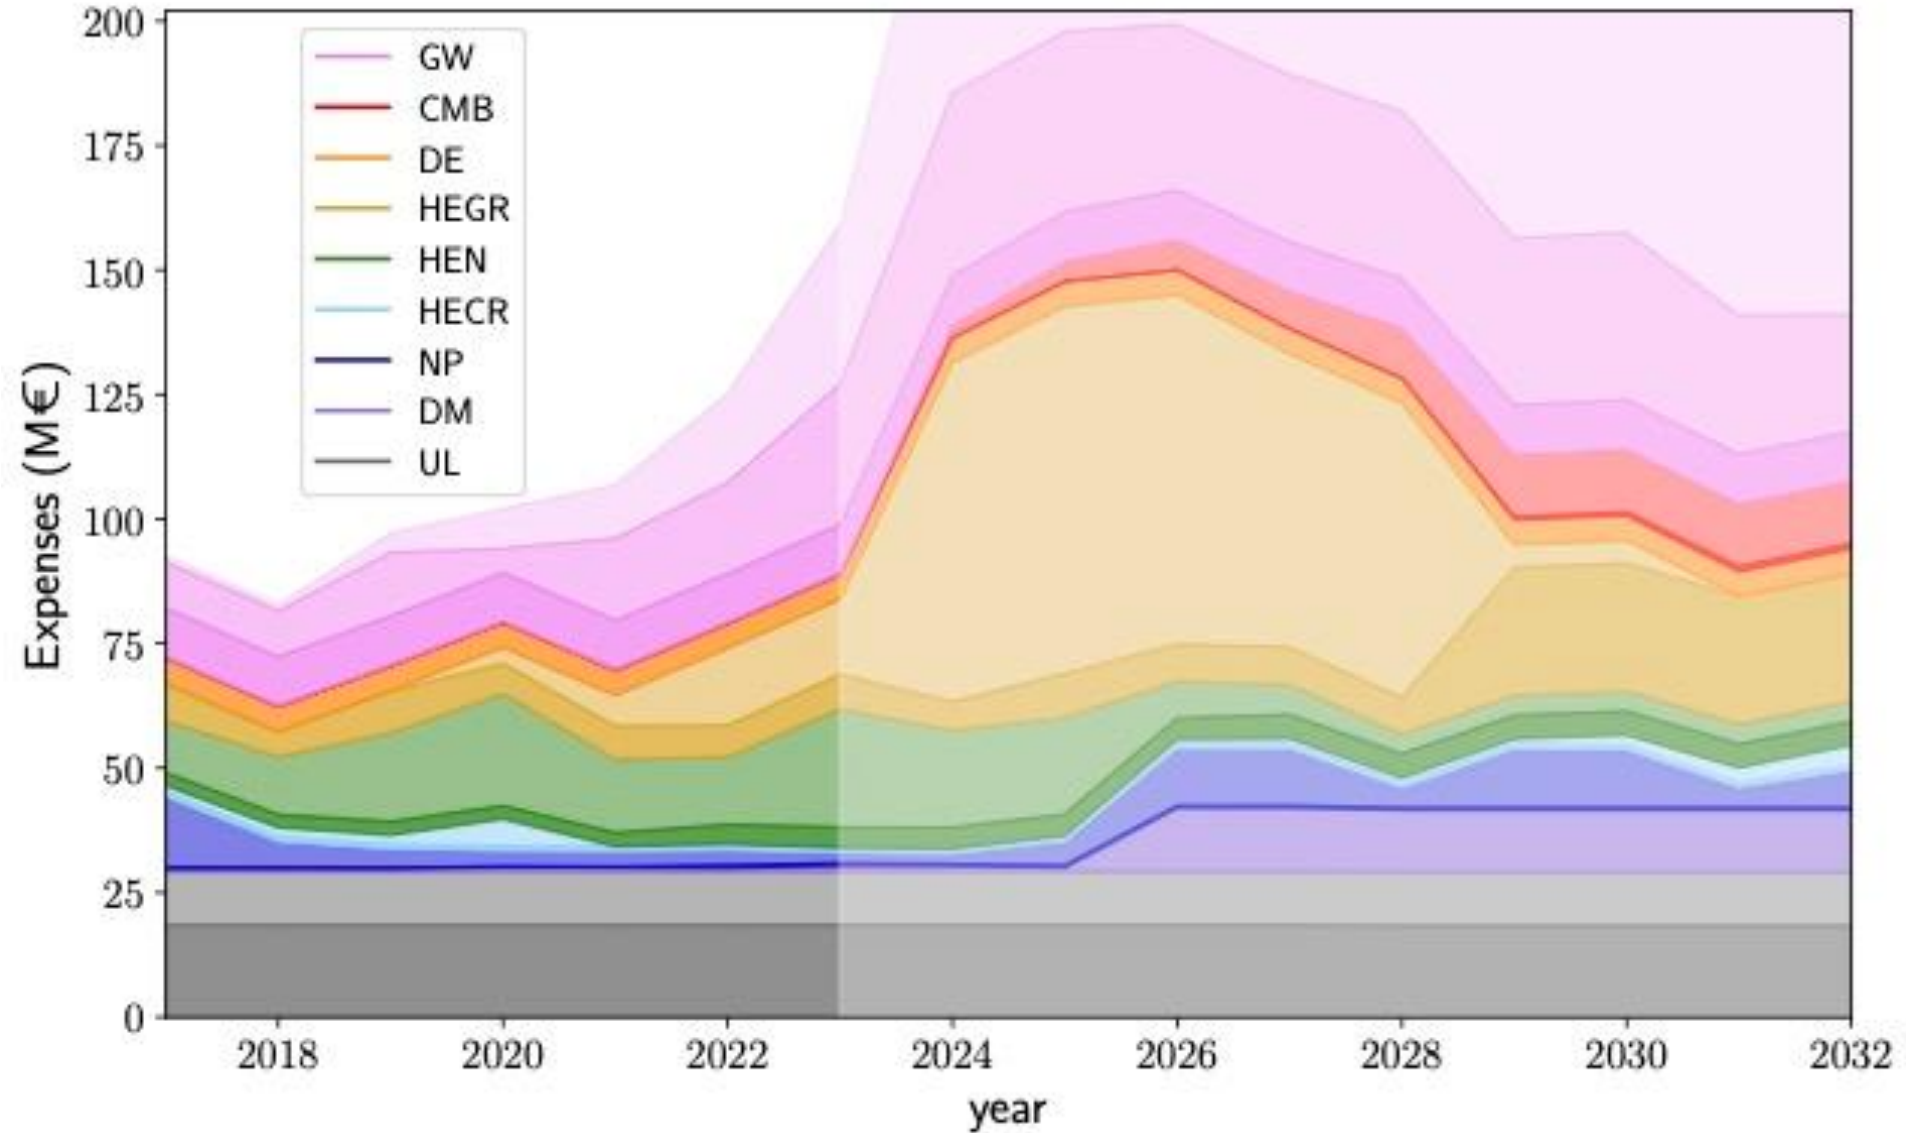

Thanks to Maria Haupt,
Katharina Henjes-Kunst, Tim
Heinl, Julie Epas, Andreas
Haungs, Job de Kleuver

A lot of work !!!

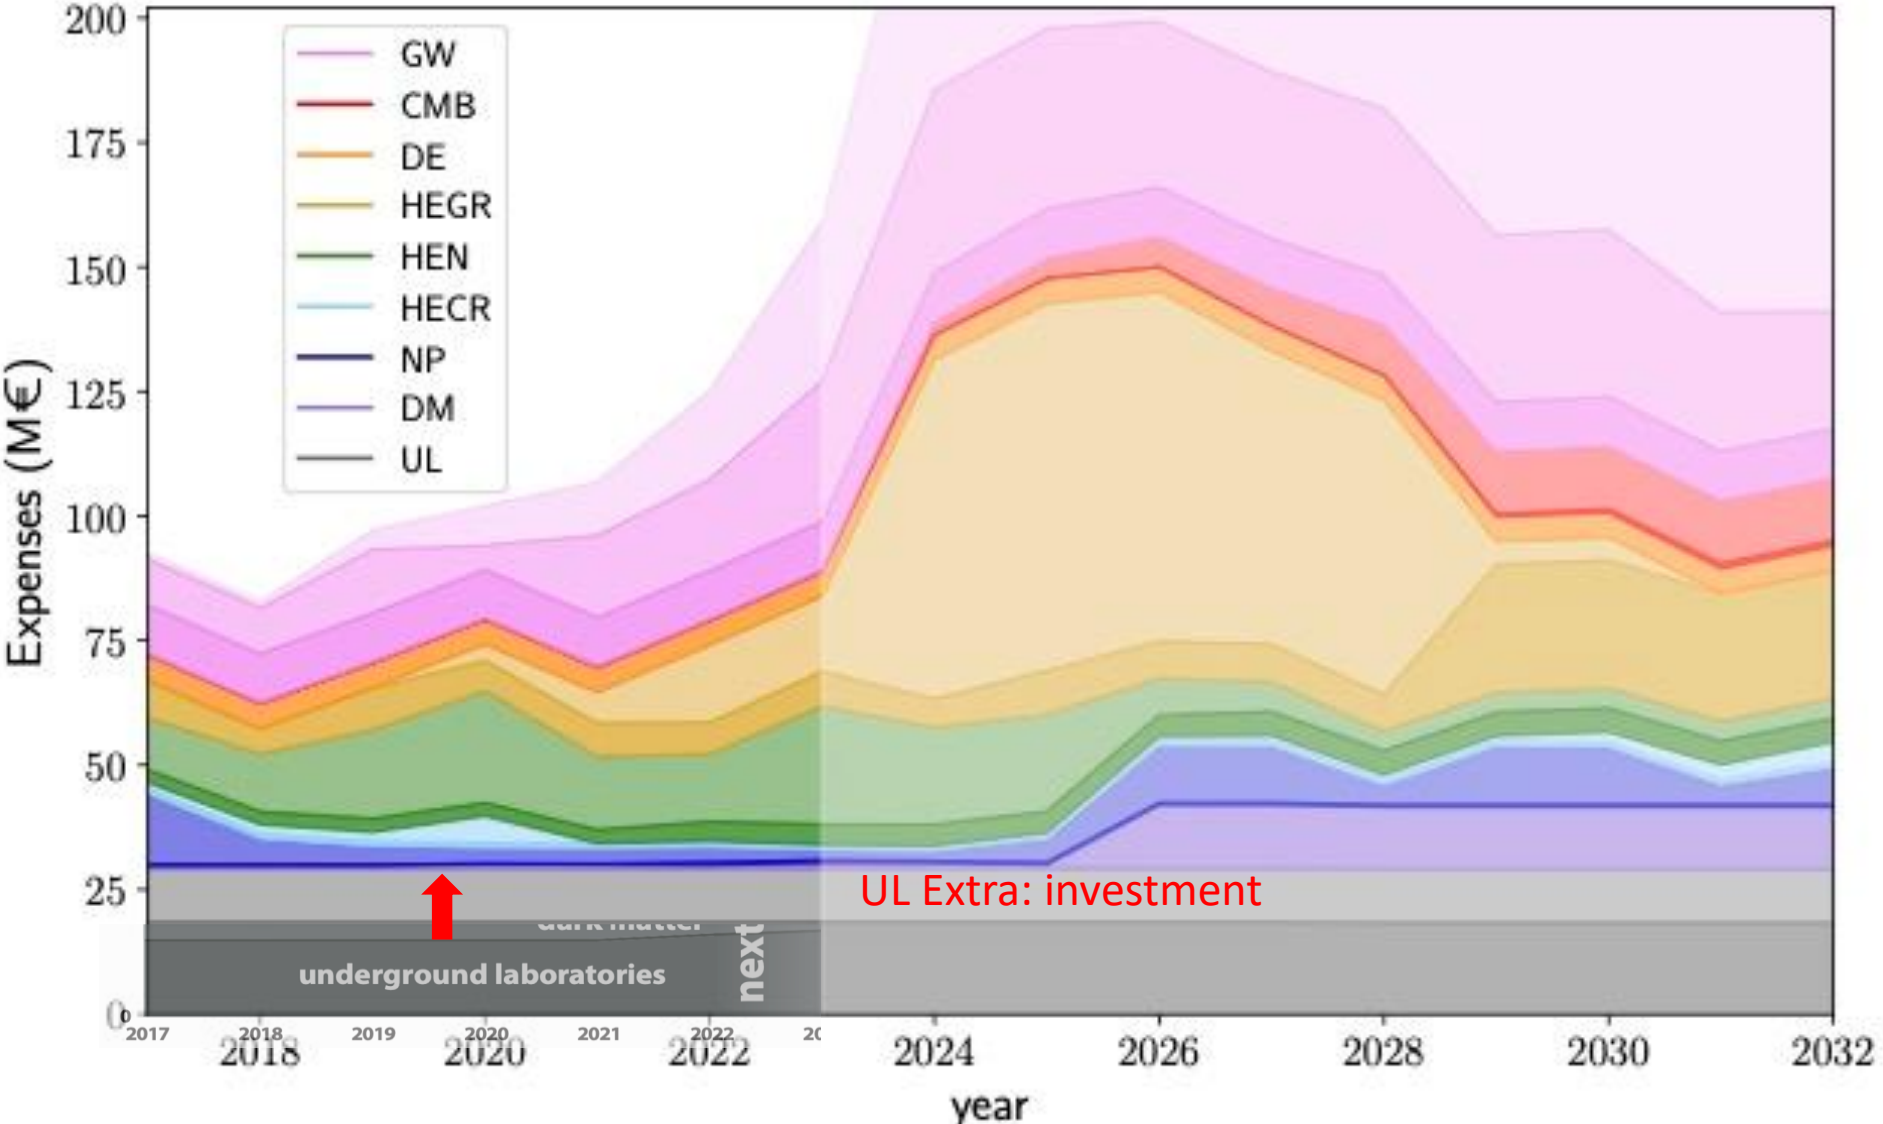

Old expenses projection

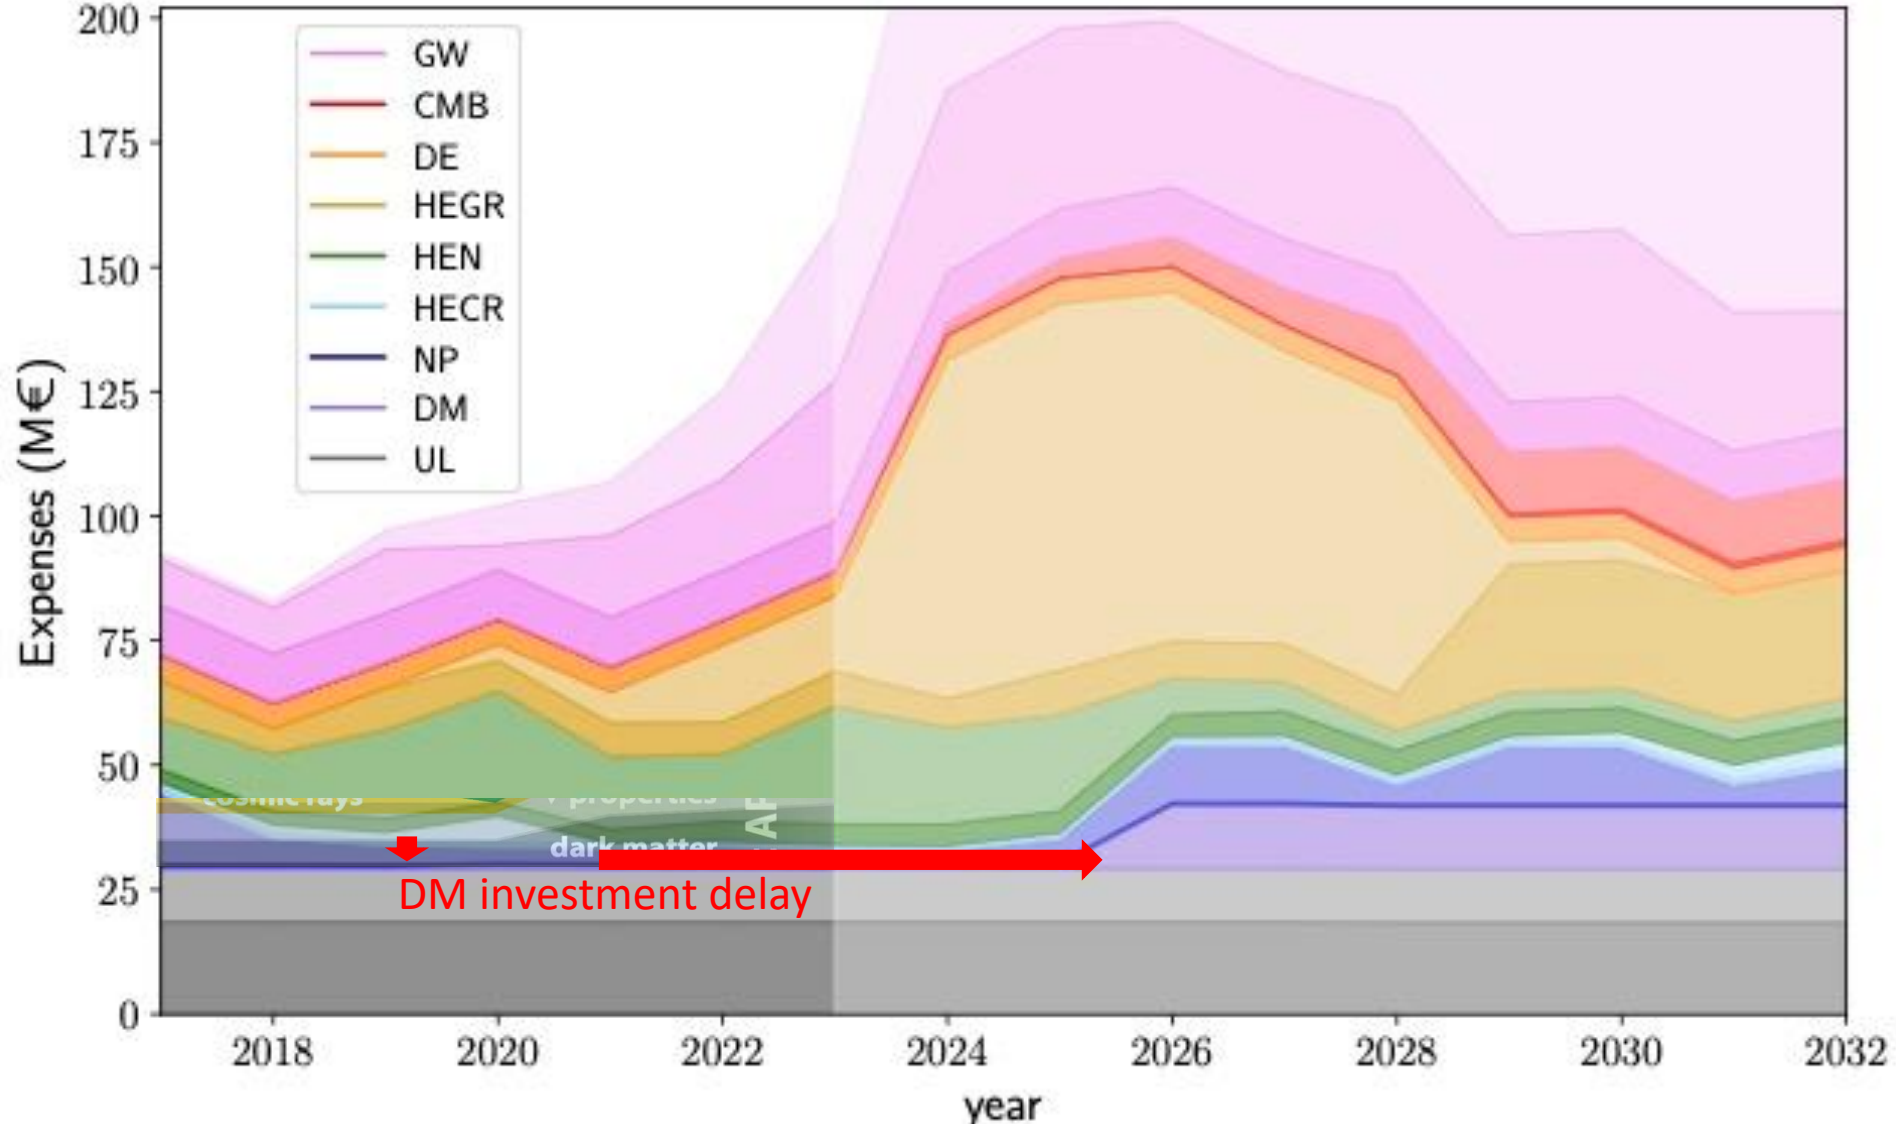

New expenses projection

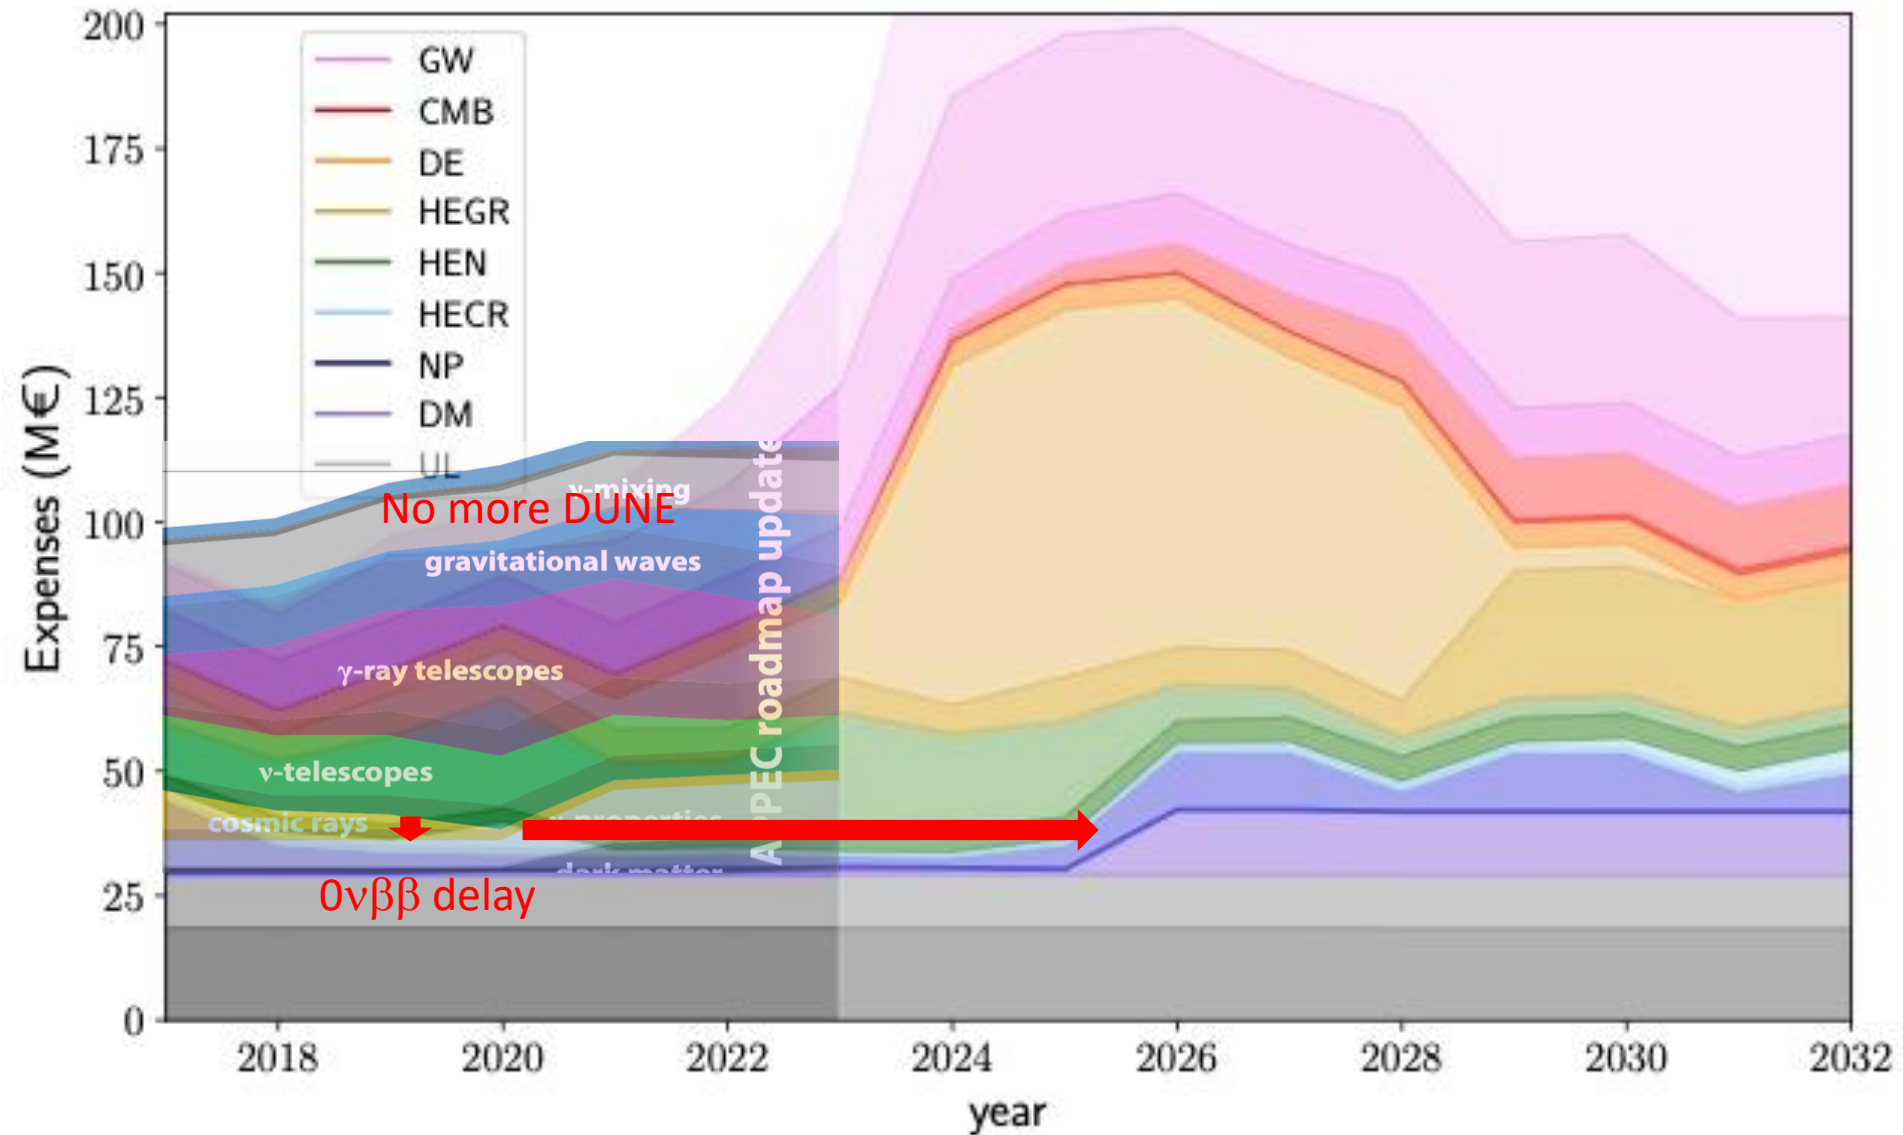

Comparison of UL expenses projection

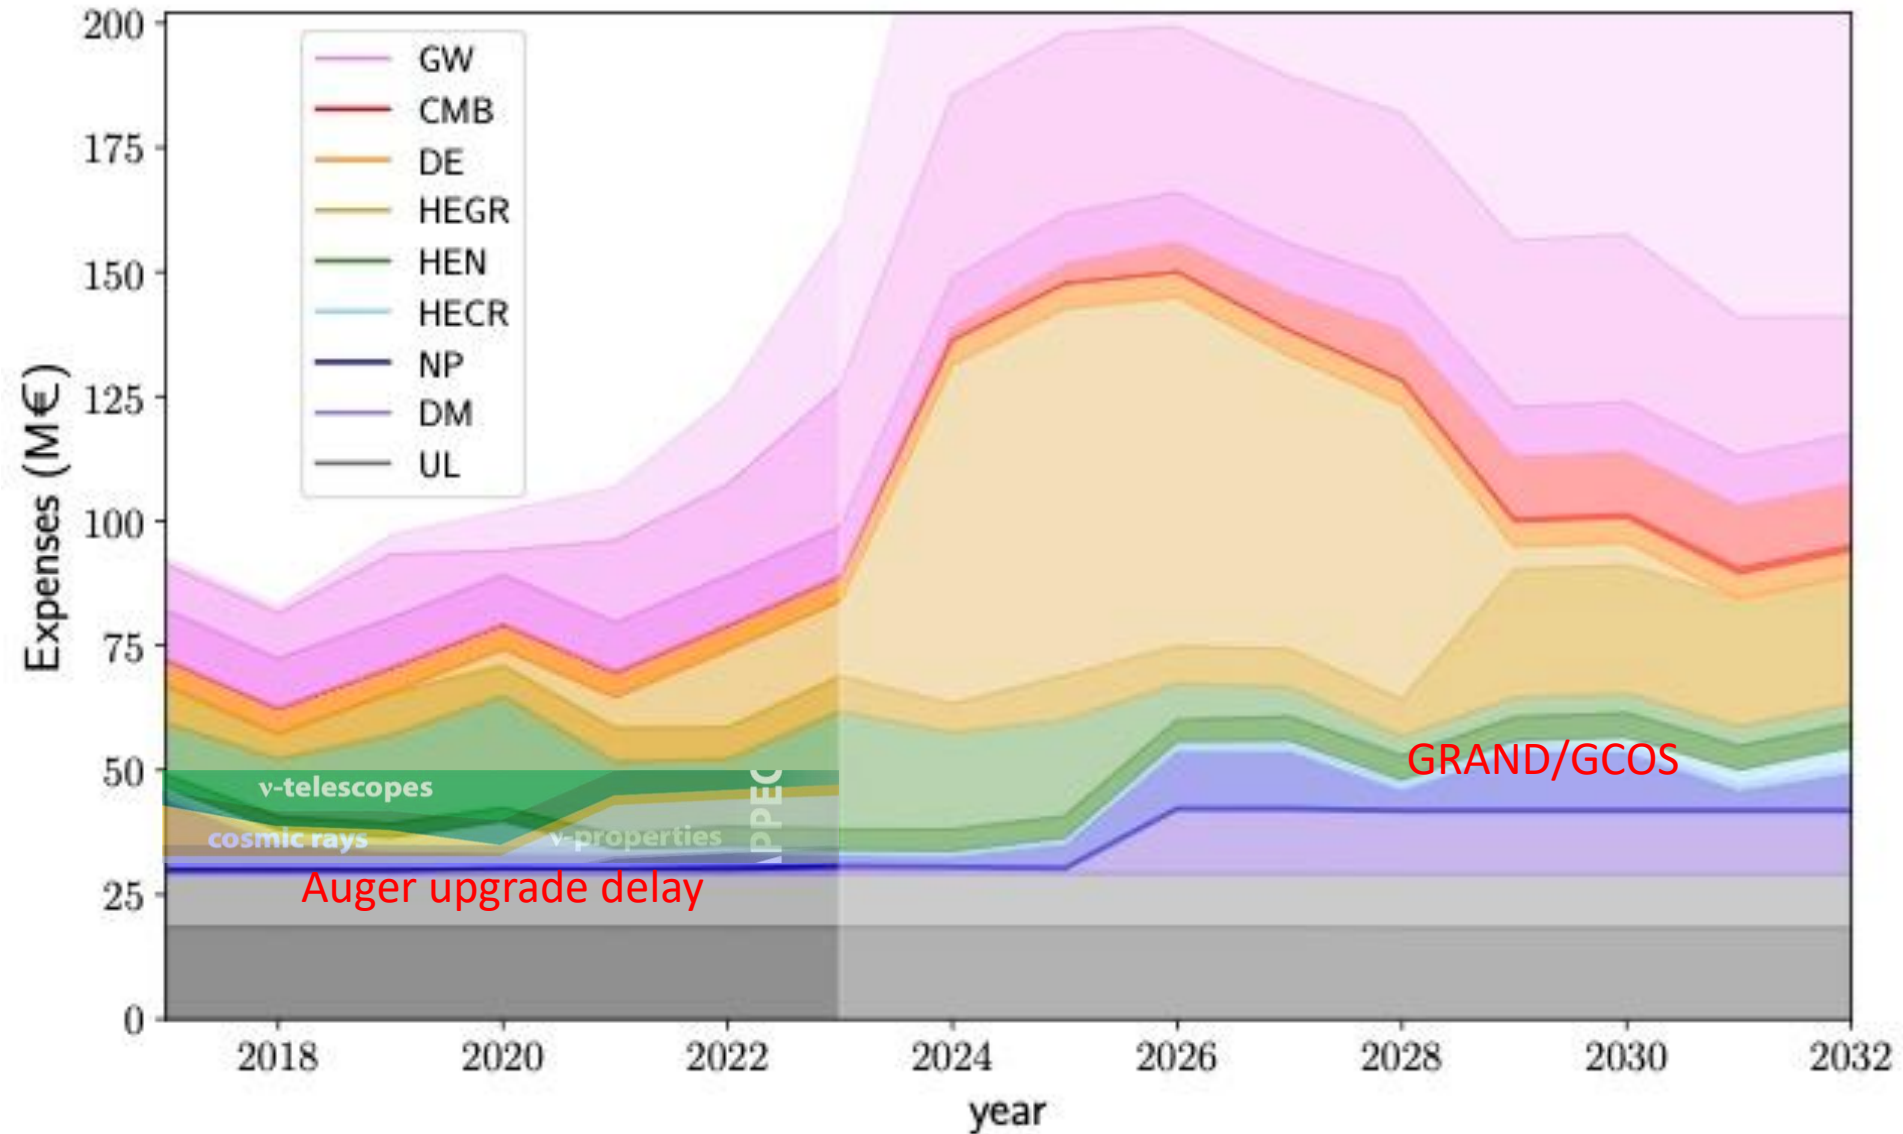

Comparison of DM expenses projection

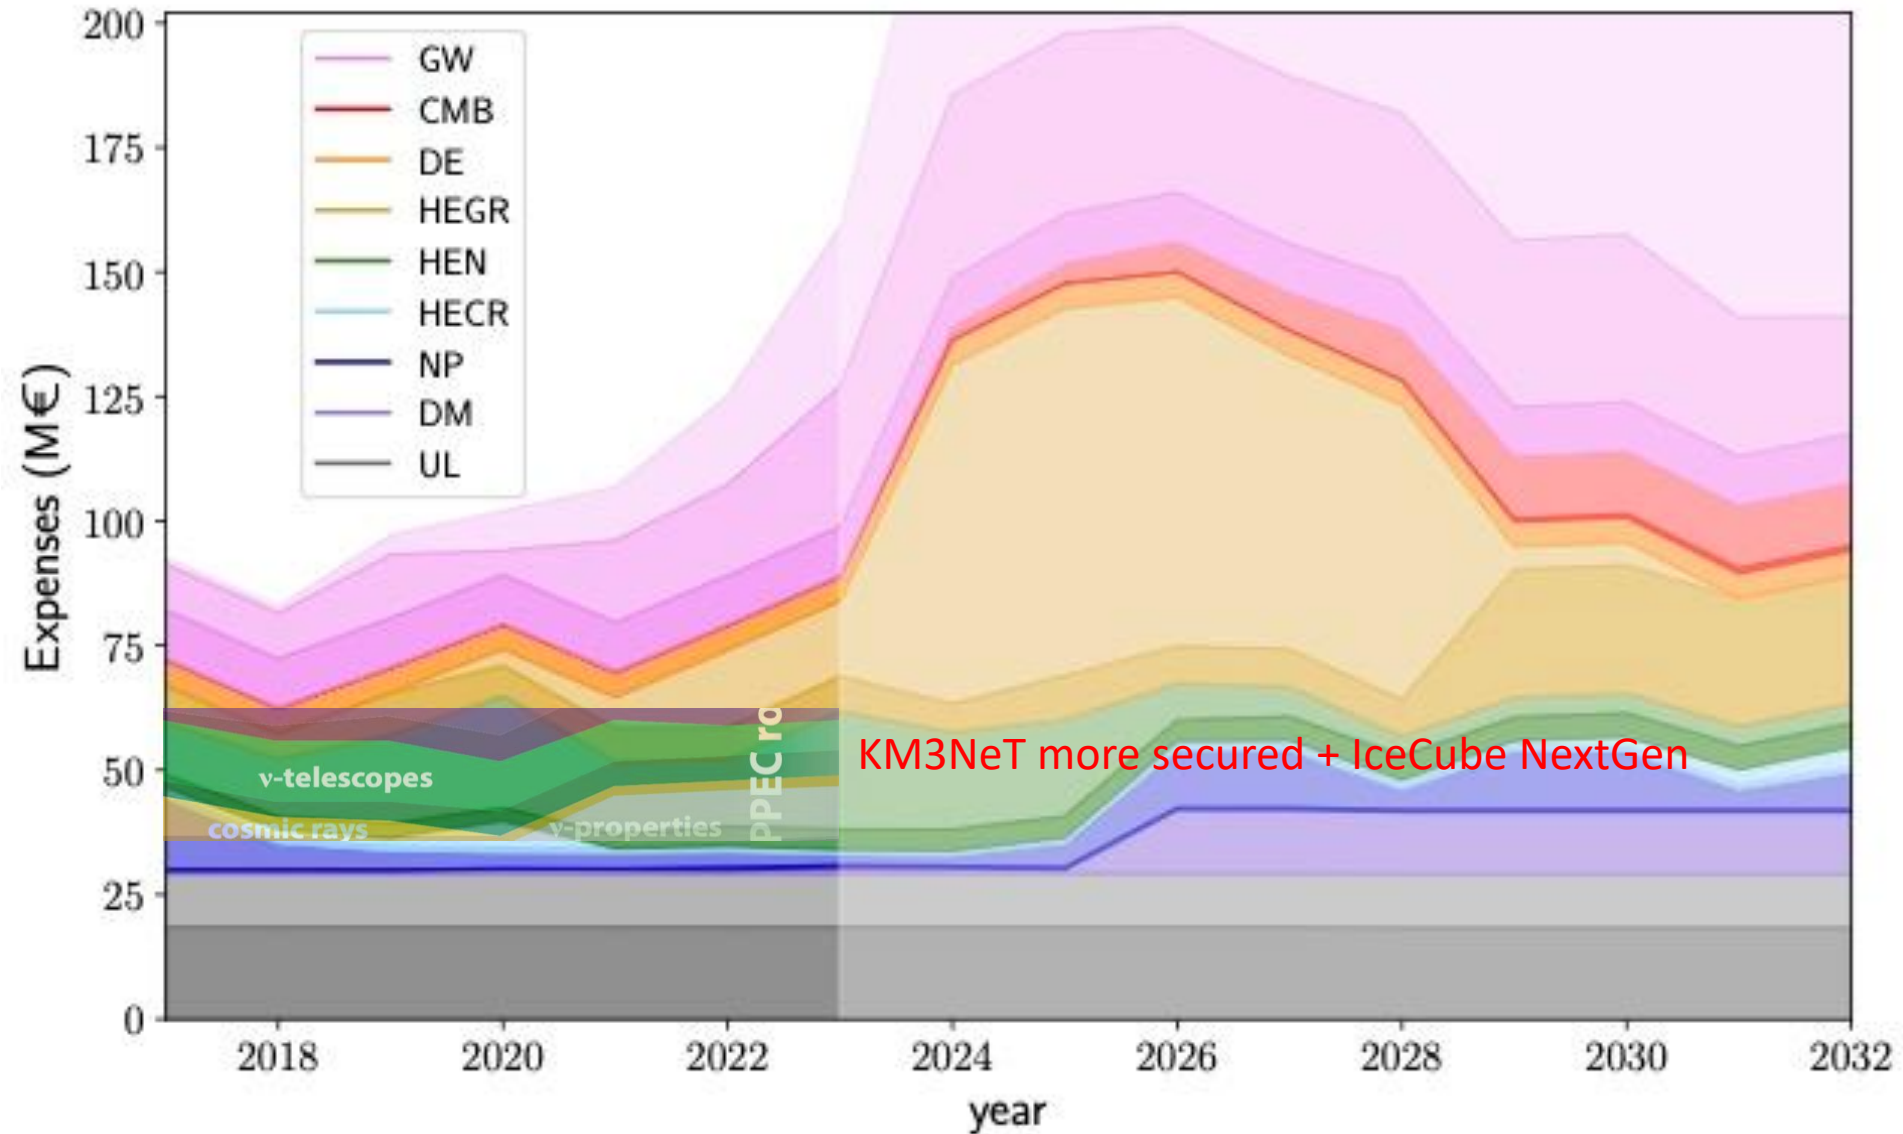

Comparison of ν properties expenses projection

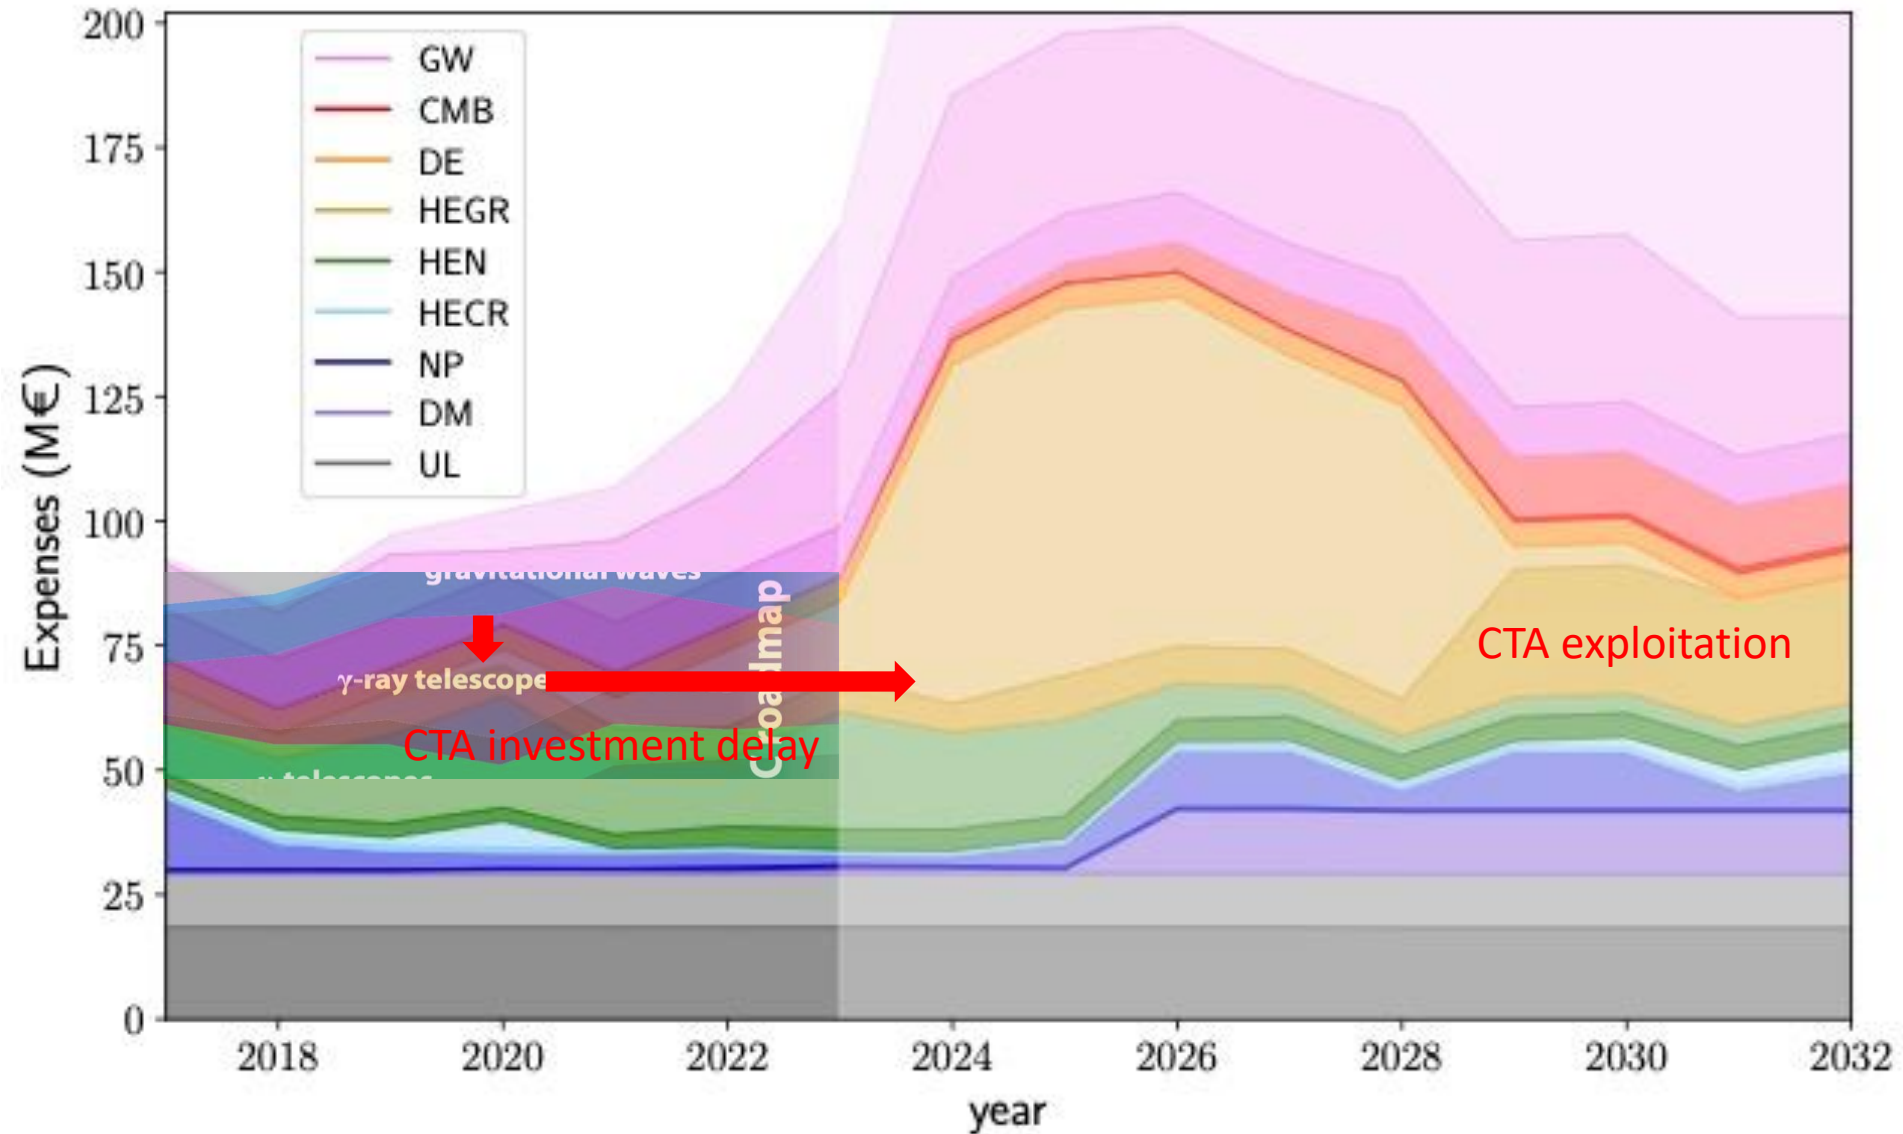

Comparison of HECR expenses projection

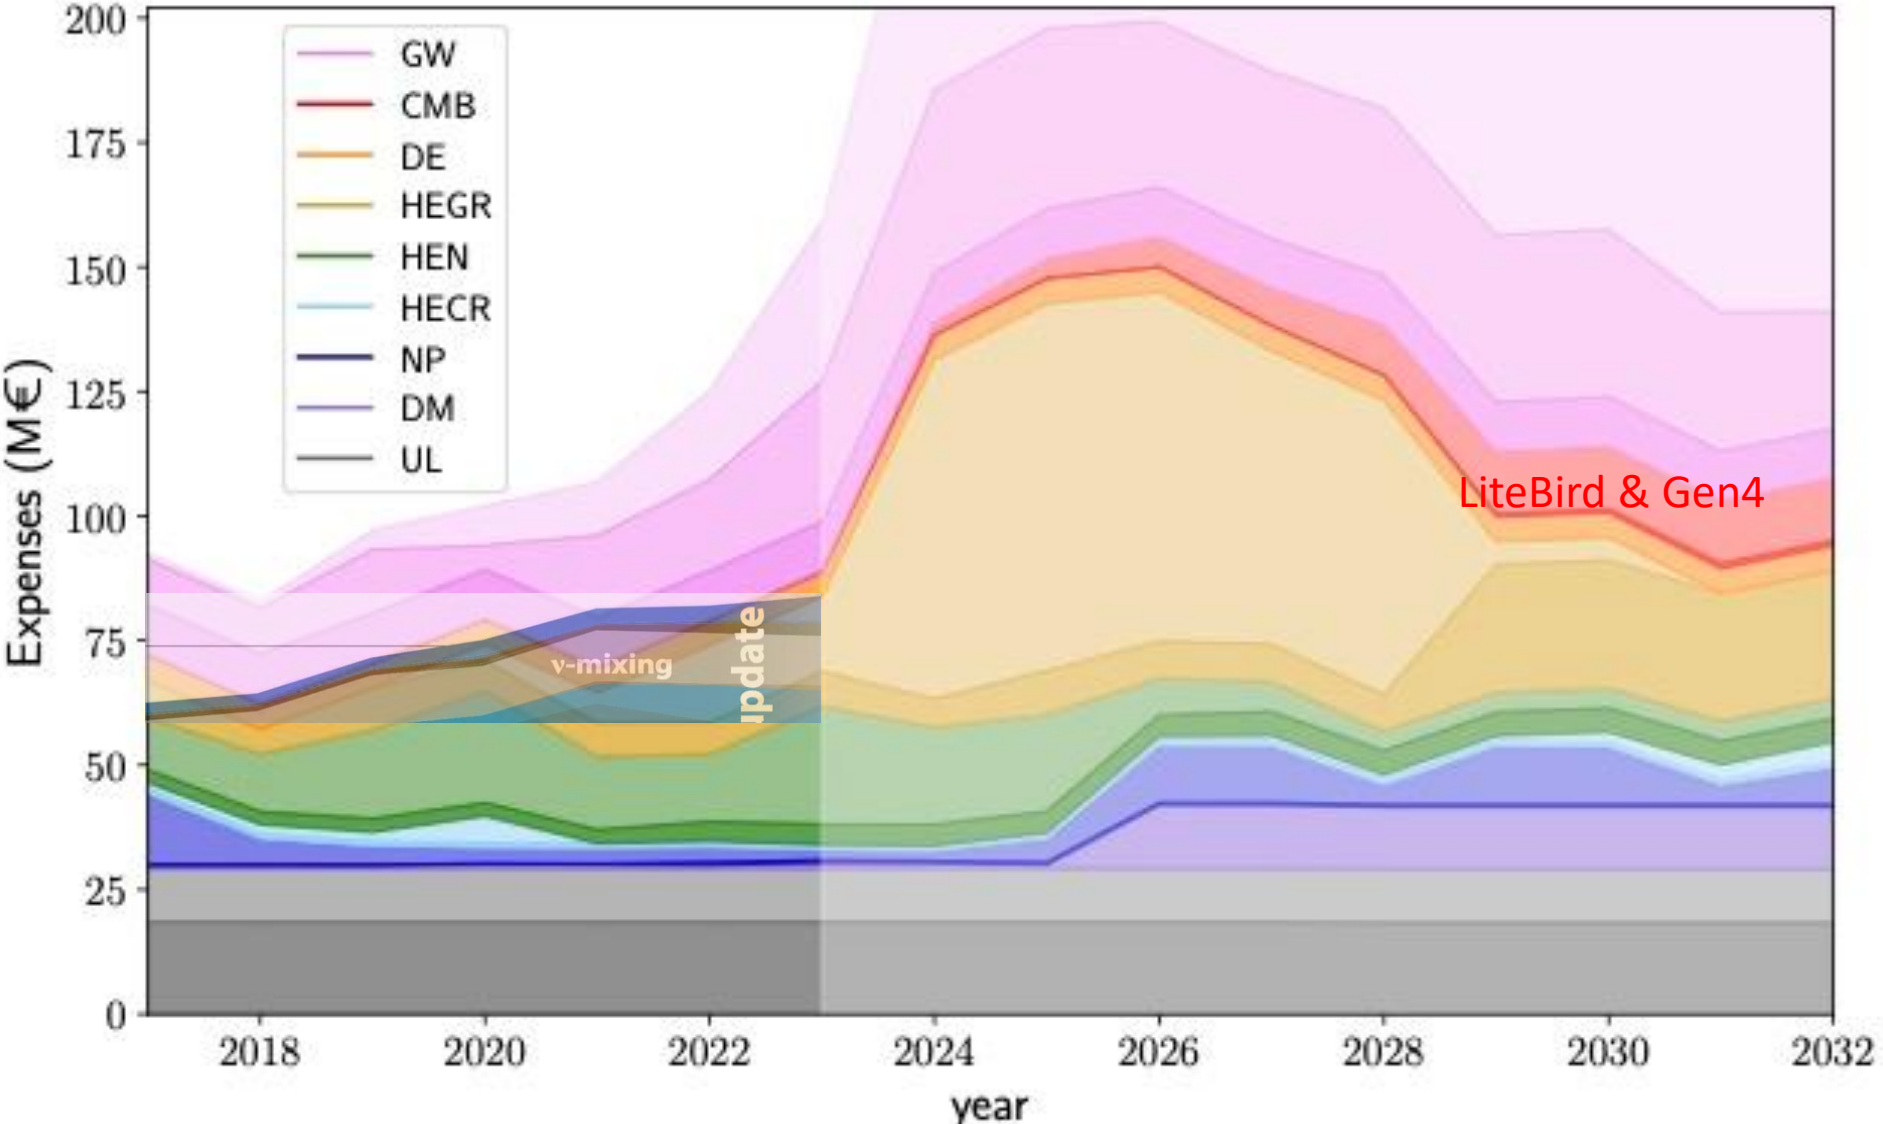

Comparison of HEN expenses projection

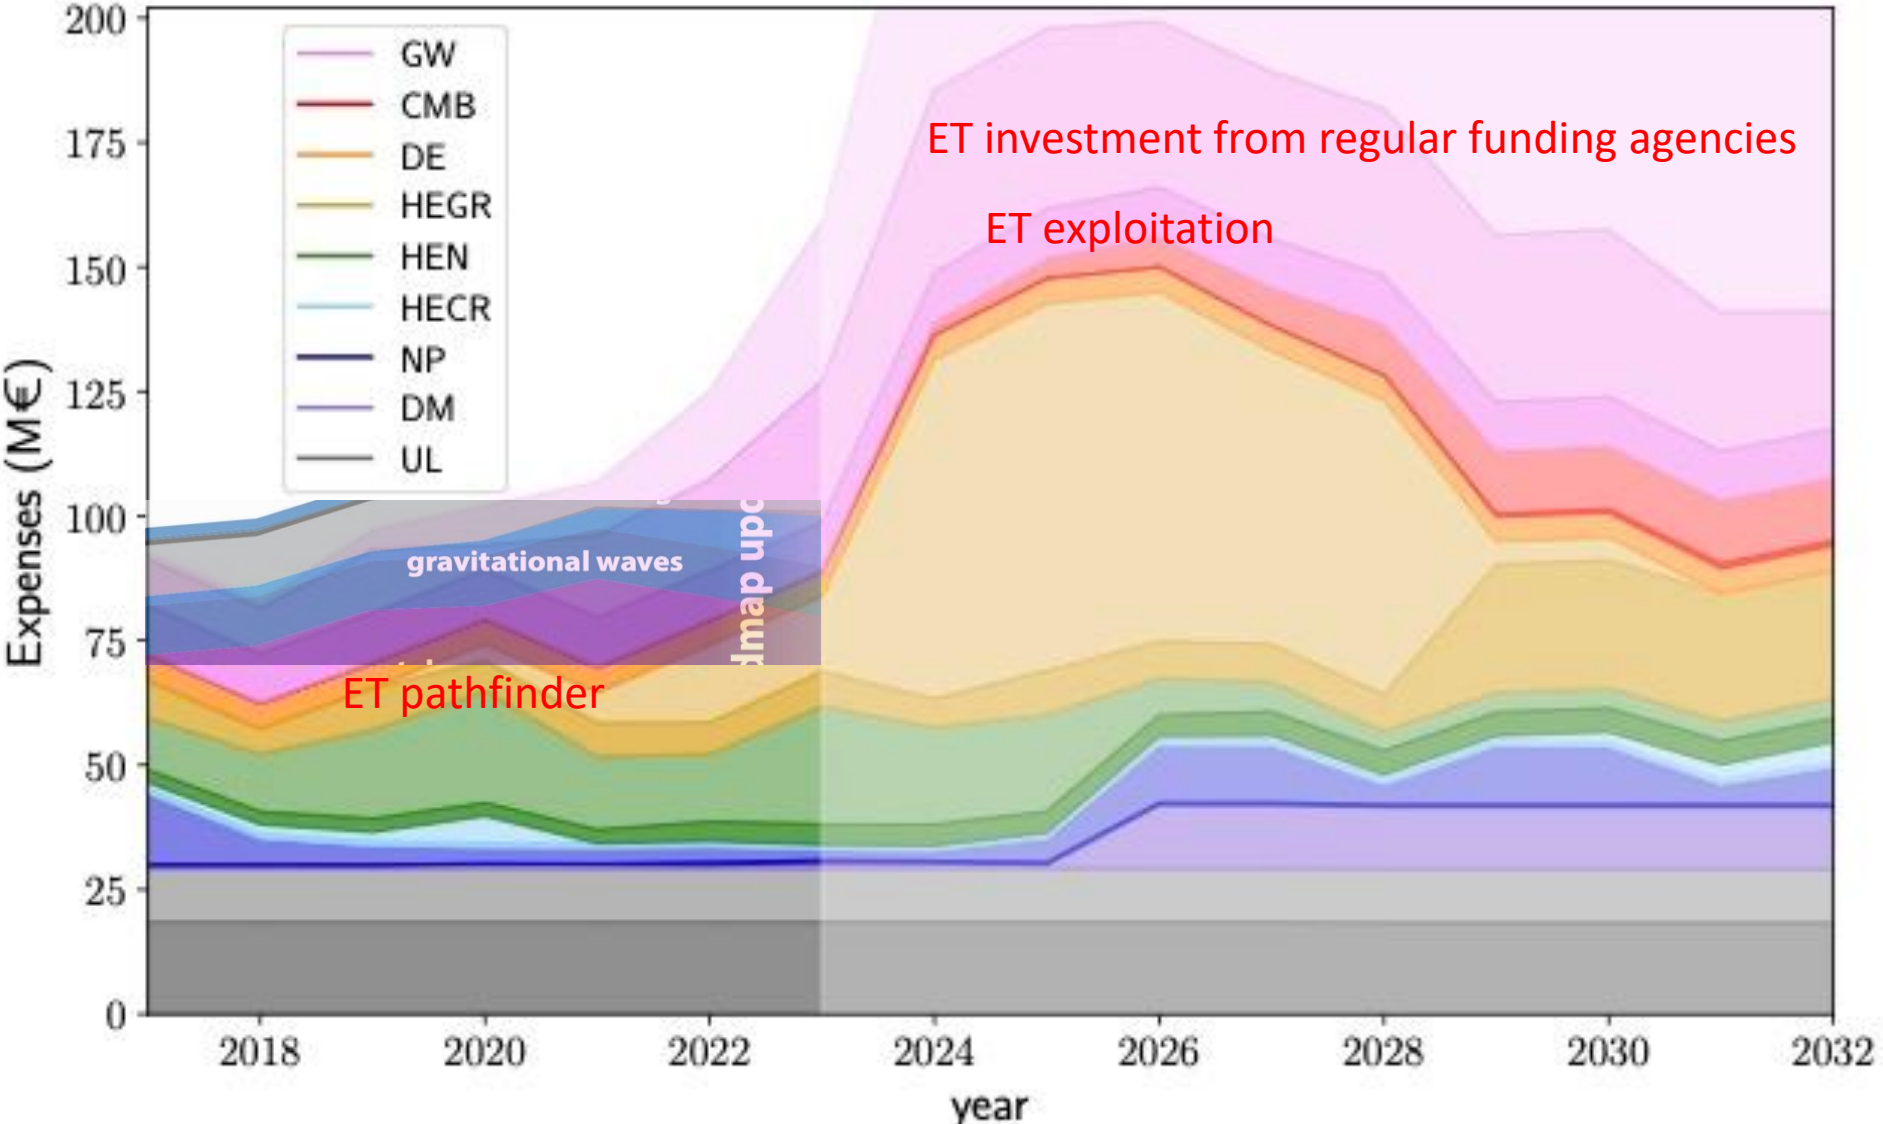

Comparison of HEGR expenses projection

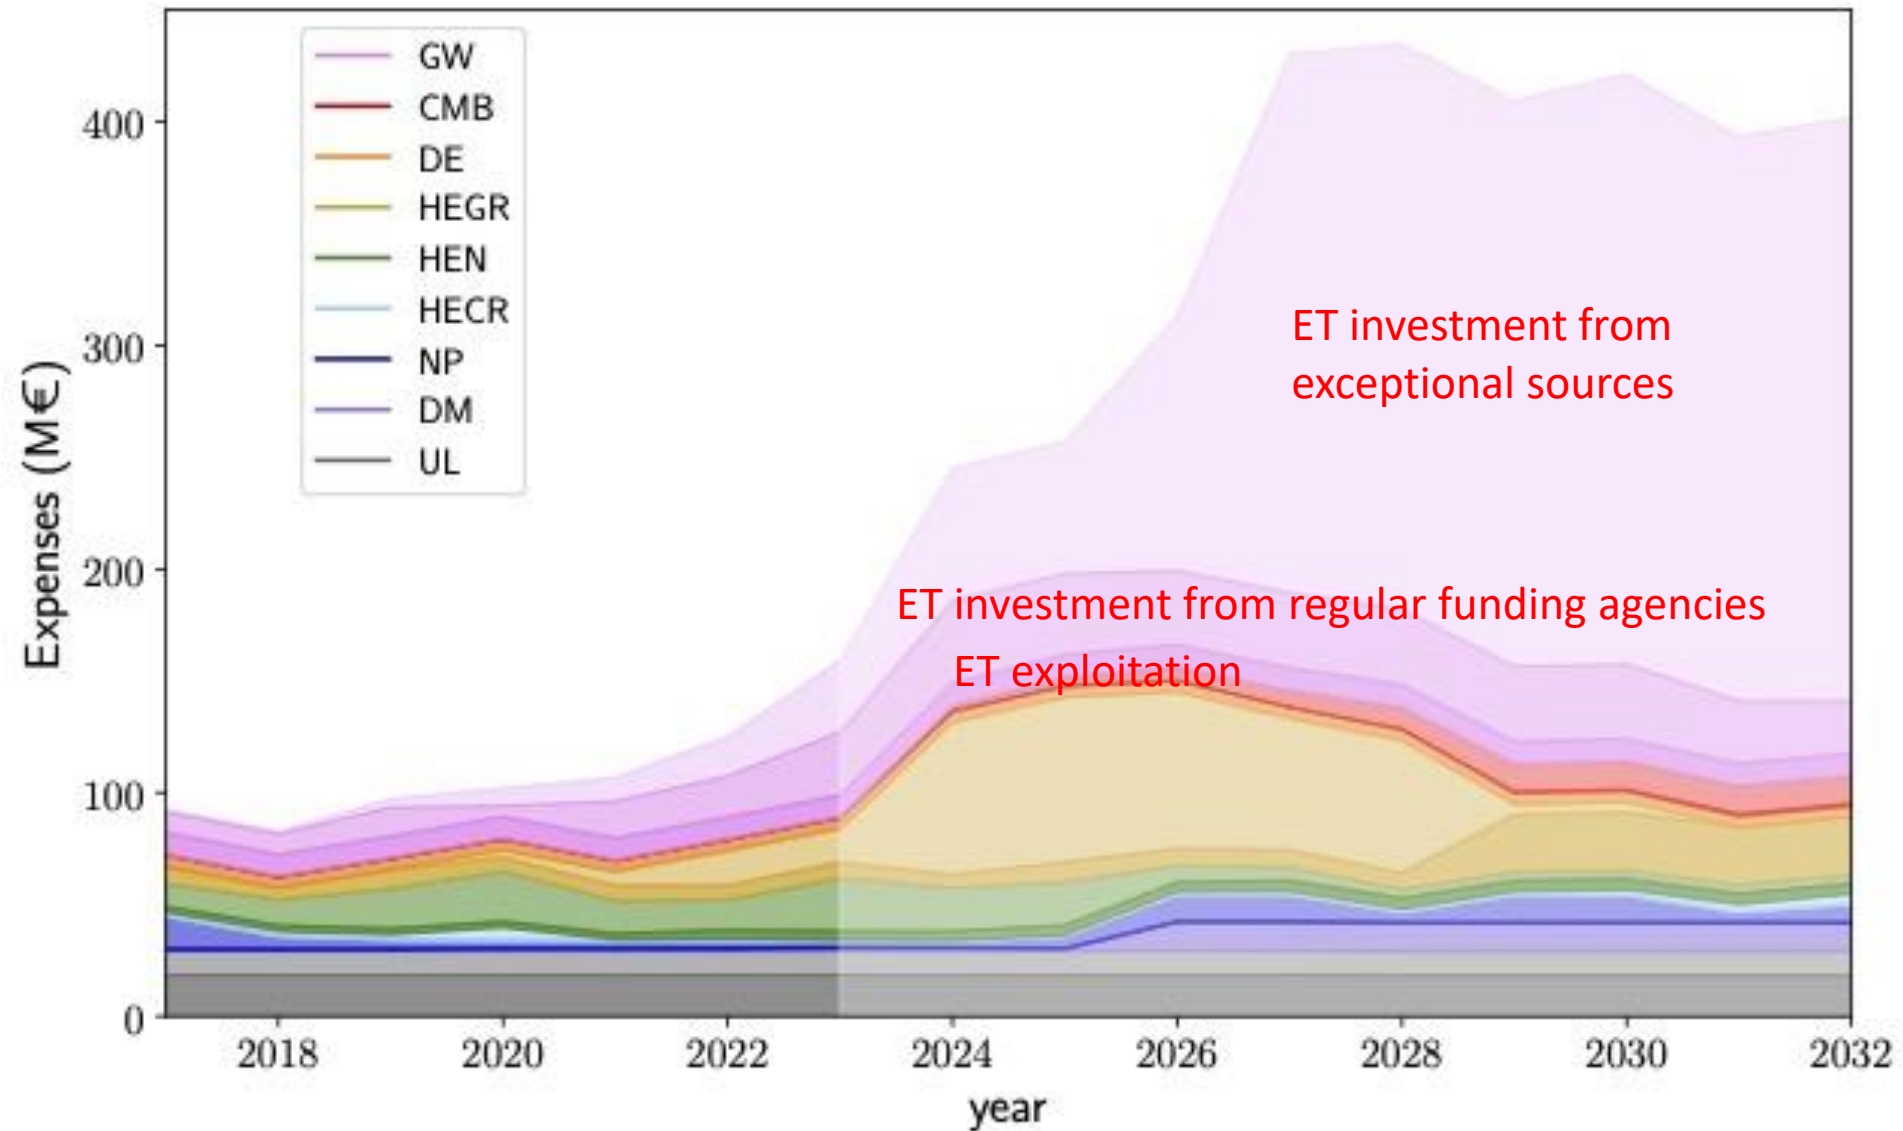

Comparison of DE+CMB expenses projection

Comparison of GW expenses projection

GW expenses projection

Next steps

1. We now go through the midterm update text (again)
2. The GA adopts the APPEC European Astroparticle Physics Strategy 2017-2026 – mid-term update text and expenses plot
3. A presentable version with pictures is prepared by the Joint Secretariat and sent for your approval (by email?)
4. Proper communication around the public launch of the midterm is organised by the joint secretariat (and executed after your approval)
