CENTRE

# Short introduction about LIC/my activities

Alfred Šostko

# LIC

The main strategic goal of LIC is the increasing of Lithuanian international competitiveness by stimulating innovations in business. This goal is divided into the following objectives:

- ▣ To foster capabilities of the companies to develop and implement innovations.
- ▣ To accelerate commercialization of achievements of advanced sciences.
- ▣ To decrease the risk of innovation implementation.

LITHUANIAN  
INNOVATION  
CENTRE

## Search for partners

Assisting in finding partners both abroad and in Lithuania for enterprises and research institutions, who:

- └ create and implement innovations;
- └ aim to sell or introduce new technologies;
- └ search for partners in international research, technological, and innovation projects.

## Search for technologies

Searching for the technologies needed, consulting on technology transfer, intellectual property protection, and other related issues.

# CERN procurement

Helping Lithuanian companies to do business with CERN and implementing CERN technologies and competencies in the industry.
