CleanWaters

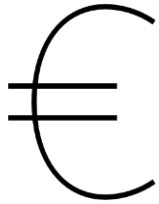

Cumulative worldwide plastic production

<https://interreg-baltic.eu/project/fanplesstic-sea/#output-0>

Outcomes

Time efficiency

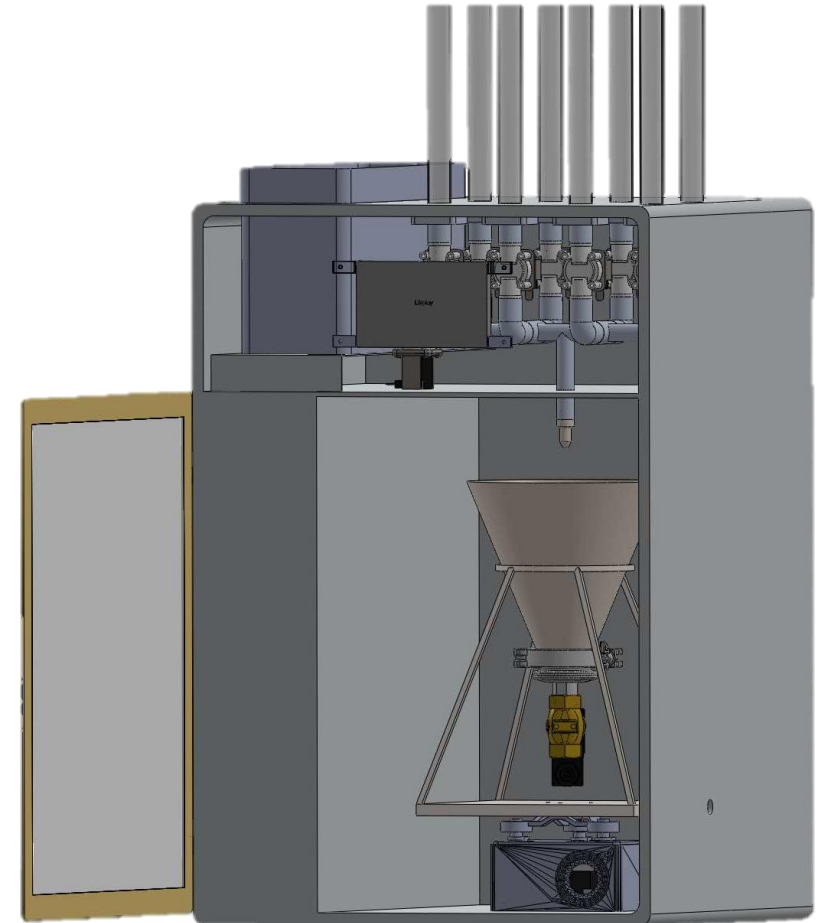

Cost reduction

Controlling cross contamination

Hazard reduction

Current stage & Timeline

**Concept design &
Prototype developed**

**Testing & Building
1st Prototype**

**Manufacturer
collaboration & Funding**

**Re-design for
multiple samples**

Funding from SYKE

Further development

“Glass2mass” from Attract EU

Utilizing improved sensors

Emerging technology solutions
