DRD1 - Scientific organization

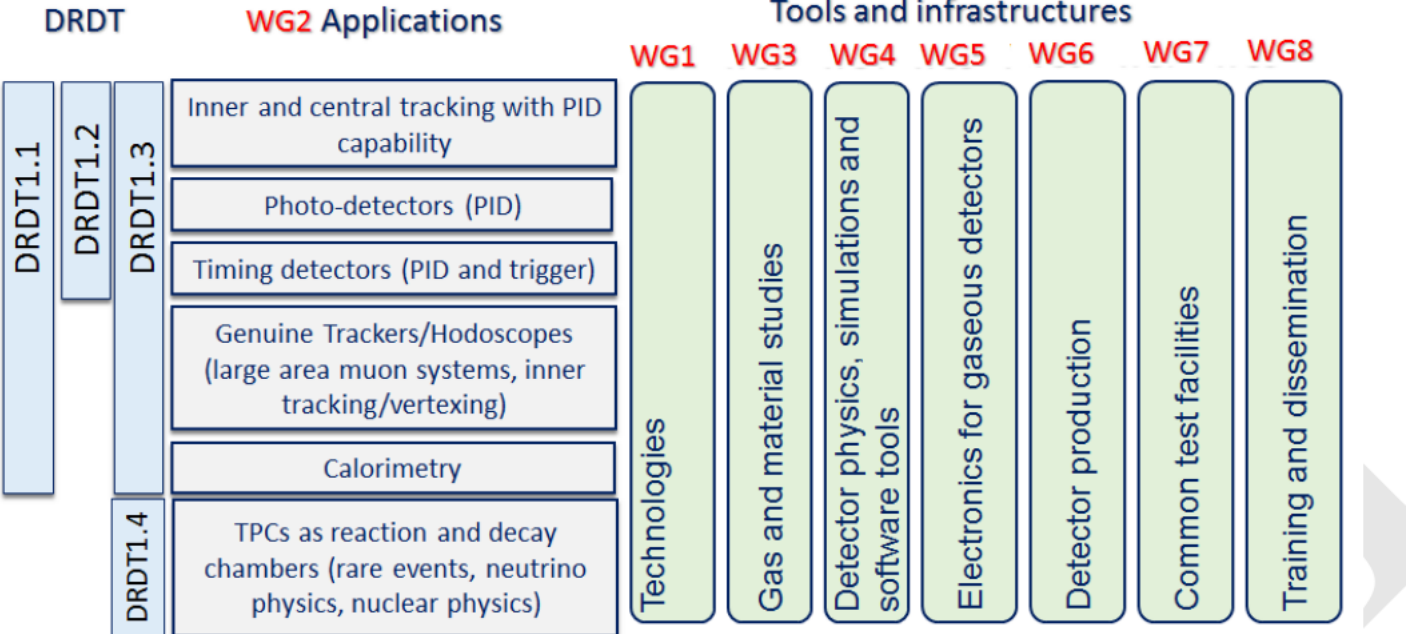

Figure 2: DRD1 Scientific Organization

DRD1 – Community driven collaboration

- Working Groups (research line) is the core of the collaboration
 - Adapting RD51 ideology; physics driven; promoting open environment, young researchers...
- Working groups participates in work packages
- Work packages communicate to and with DRD1 community
 - Don't operate in a vacuum
 - Funded by funding agencies

DRD1 – Next steps & Time line

From Maxim – Thanks!

If we want to start DRD1 in Jan. 2024 (and to ensure smooth RD51 to DRD1 transition), we have to design the **STRATEGY of how the organization of the collaboration might look like – and pave the road towards setting up the collaboration & its implementation**

- 06. – 07. 2023:** Community feedback to the DRD1 Extended Proposal (Main Document & Executive Summary)
- 07. 2023:** Submission of the DRD1 Extended Proposal to DRDC (after consultations with DRDC Chair)
- 08. 2023:** Formation of the Electoral / Administrative (“Provisional”) DRD1 Collaboration Board
 - Institute **“contact persons”** (*DRD1-InstituteRepresentative@cern.ch*), appearing as authors of the DRD1 Extended Proposal, will be considered as **members of the “provisional” DRD1 CB**
 - Caveat: There can be **only one CB representative per research institute** (if institute is involved/interested in several gas detector technologies)
 - The “provisional” DRD1 CB role will be mostly/only electoral
- 09. 2023:** DRD1 Extended Proposal Team (DRD1 Working Group + DRD1 WG Conveners) will be in-charge to **set up “DRD1 Search Committee” for Elections of 2 Spokespersons and CB Chair**
 - DRD1 Search Committee membership has to be endorsed by the “provisional” DRD1 CB

DRD1 – Next steps & Time line

From Maxim – Thanks!

10. – 11. 2023: DRD1 Search Committee *solicits community nominations for Spokespersons and CB Chair* positions, verifies candidates availability, and asks them to prepare statements & presentations for the future DRD1 vision / strategy / structure / implementation ...

12. 2023: Once DRD1 proposal approved by CERN DRDC & Research Board (Nov. 2023 ?):
- Search Committee organizes open meeting (*Dec. 2023 ?*), where *SP & CB Chair candidates present their statements* and answer community questions

12. 2023 – 01. 2024: *DRD1 Search Committee organizes and holds* (in consultations with an DRD1 Extended Proposal Team) *electronic election campaign for two SP and CB Chair position* (one vote per institute; vote cast by “provisional” DRD1 CB members)

01. – 02. 2024: Kick-off DRD1 collaboration meeting at CERN
- Scientific program is prepared by the DRD1 WG Conveners
- *DRD1 Extended Proposal Team (DRD1 WG + DRD1 conveners) mandate is terminated*
- *Results of two Spokesperson & CB Chair election results announced*
- *Collaboration proceeds to setting up other collaboration bodies*

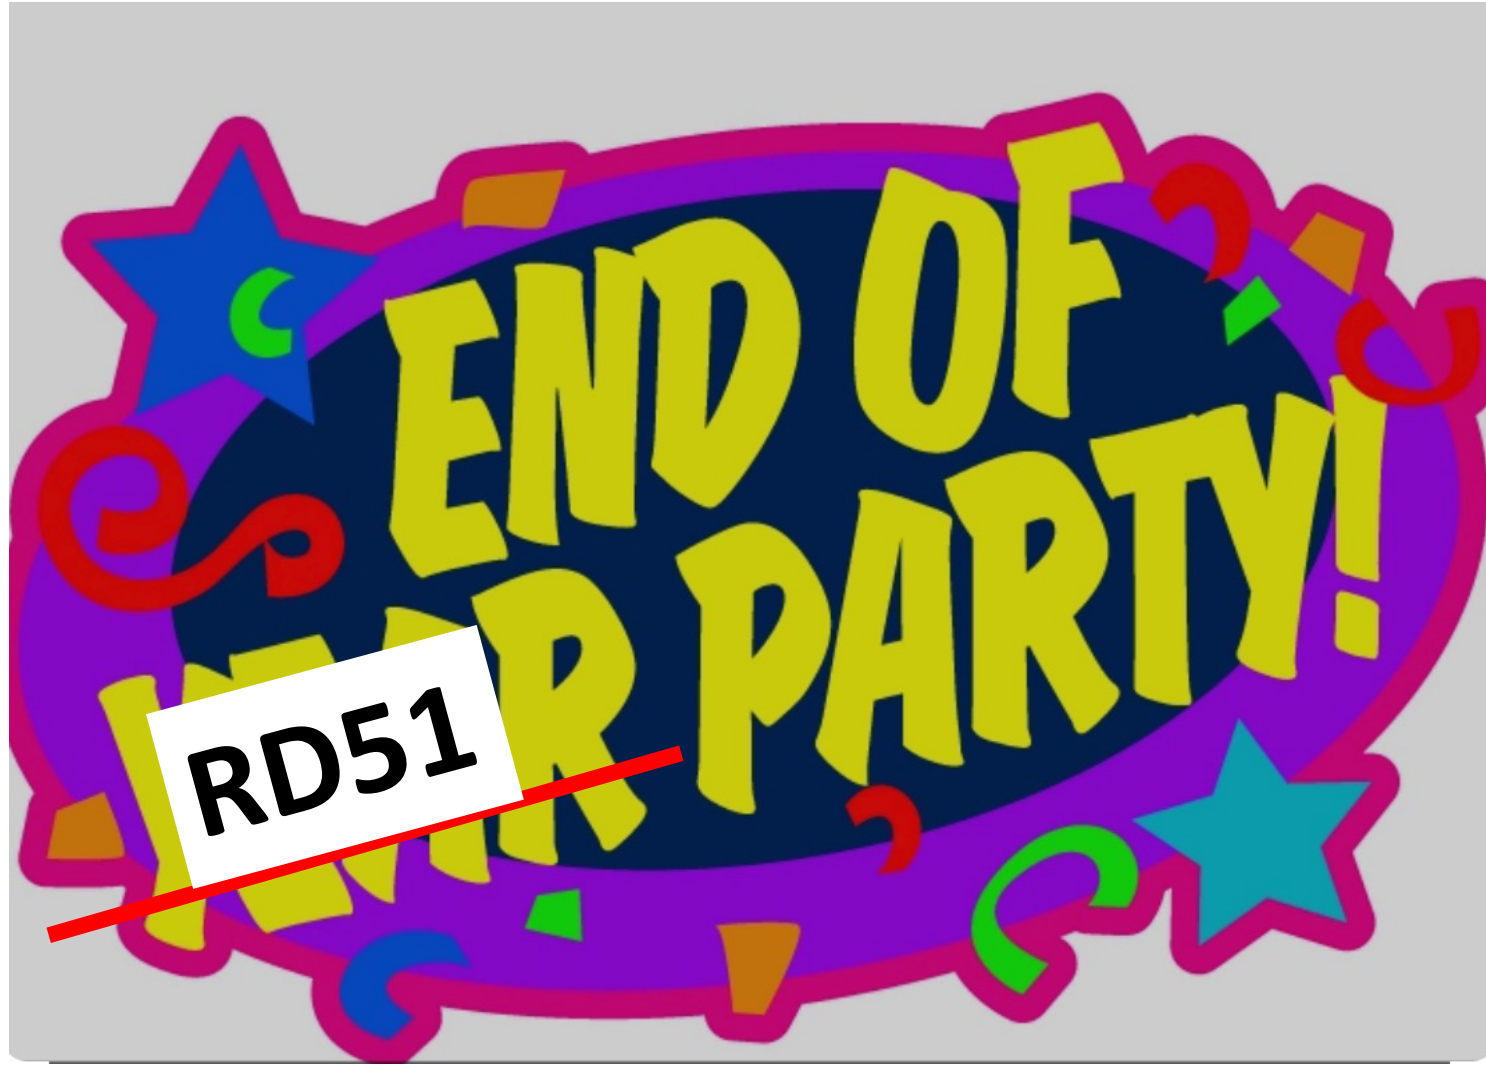

Upcoming conferences

- 3rd International Conference on Detector Stability and Aging Phenomena in Gaseous Detectors
 - Roberto Guida
- 11th Symposium on Large TPCs for low-energy rare event detection
 - Paul Colas
- MPGD 2024
 - Jianbei Liu
- RD51 school
 - Florian / Mauro

Additional points

- Financial review foreseen between October and December
 - Standard CERN procedure for R&D collaborations
- RD51 SRS end-user agreement with CERN is approved
 - For HW, FW and SW

Last but not least

RD51

Last RD51 collaboration meeting

- In December we will hold our last collaboraiton meeting
- Since covid – attendence in meetings is not fully recovered
- It will be great to re-convene in large numbers for the last time

- Fun ideas are welcome
- We hope to see you all in person
