

Session Program

20-21 Jun 2023

Low Density Materials for Beam Instrumentation Workshop

Beam instrumentation needs 2/2

CERN, 774/1-079

Tuesday 20 June

10:50

Beam instrumentation needs 2/2

Session | **Location:** CERN, 774/1-079

10:50–11:15

Nanomaterials and CNTs in ISOLDE targetry

Speaker

Dr Simon Thomas Stegemann

11:15–11:40

Use of low-density graphitic materials for beam-intercepting devices

Speaker

Nicola Solieri

11:40–12:05

How high-power accelerators damage thin wires

Speaker

Mariusz Sapinski

12:05
