LHCb: token status

30.06.2023

Current status

- ETF tests
    - Token specific tests are not yet implemented
    - As well as storage tests

Current status

- CEs
  - HTCondor
    - 56/70 CEs are running pilots using tokens
      - Including Bristol, IC, RHUL
  - ARC
    - 3 CEs handle pilots using tokens
      - A PR is on the way to solve some issues
      - Volunteer sites, no rush as the config might change with ARC7
      - RALPP may be added as a volunteer
- SEs
  - Still work in progress
