Expression of interest for 2024

- **Kenyatta University in Nairobi**
- Dr. Nadir Hashim (Astroparticle physics) [profile](#)
- Contact facilitated by Lydia Roos (LPNHE, France)

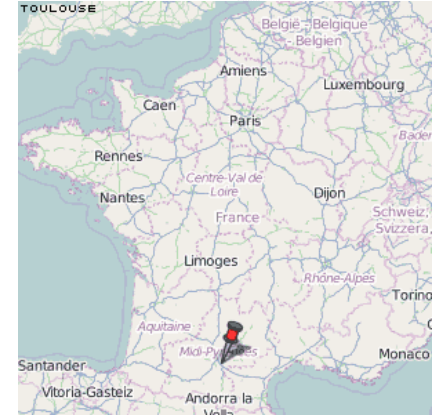

„Nadir and I would like to organise a masterclass next year”

“Videoconference has to be earlier, since transportation of school students after 18:00 is forbidden”

Proposed solution: We can arrange a CERN videoconference on a specific date in Feb/March 2024 at 14:00 CET (15:00 in Kenya). We have participants from Turkey, Israel, Cyprus, United Arab Emirates, Qatar etc. But this would request that participating institutes choose a common date.

Expression of interest for 2024

- **L2IT, University Toulouse, France**
- Dr. Joany Manjarrés, Junior professor
- Postdoc at TU Dresden 2017-2022

„I’m writing to you regarding the International Masterclasses, I certainly noticed the absence of this program in Toulouse, and I would like to move that!

Looking forward to join the International Masterclasses and to keep the contact with the Institute of Awesomeness :)”

- Included in IMC mailing list
- Profile website under construction

More expression of interest for 2024

- **New: Lehigh University in Pennsylvania, USA**
 - Anders Knospe, ALICE
 - frequent moderator in CERN videoconferences
- **Restart: University of Durham, U.K.**
 - Jeppe Andersen, Particle Physics Phenomenology
