

A banner image for the workshop. It features a central vertical beam of light with a bright yellow and orange core, surrounded by blue and purple halos. The background is dark with some grid-like patterns. The text 'TPF23' is in the bottom left, '3rd TOP at the Precision Frontier' is below it, and 'Purdue University 1-3rd October, WL, USA' is in the bottom right. There are also small 'P' and 'T' symbols on the left and right sides.

TPF23

3rd TOP at the Precision Frontier

Purdue University
1-3rd October, WL, USA

Closing

TPF23 – Oct 2nd to 3rd 2023

Thanks for all speakers and
attendees for joining for the
workshop – its been exciting!

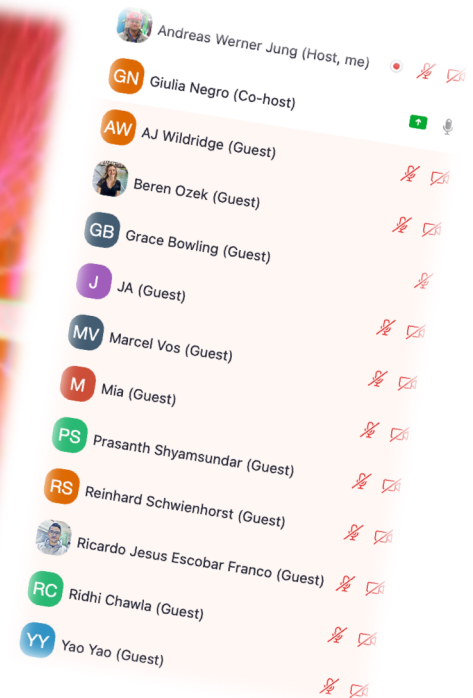

Top Quark Physics at the Precision Frontier

TPF23

3rd TOP at the Precision Frontier

Purdue University
1-3rd October, WL, USA

- Thanks to all for coming – and I hope we made the best of it despite less than optimal circumstances

TPF23

3rd TOP at the Precision Frontier

Purdue University
1-3rd October, WL, USA

- Roughly 25 – 35 attendees

Future iterations:

- Mix of topics is interesting but also a challenge however maybe this is the future
- It is interesting to see what we can do in the realm of fundamental tests of quantum tomography

If you are in the area – enjoy the last “summer” days of the season with 87F here today!

...and feel free to let Giulia know for tours
