GROW: Grid Research and educatiOn group @ ioWa)

Looks to be a coordinated OSG effort between U of Iowa and U of Northern Iowa designed primarily to troubleshoot OSG (?)   [initial OSG funding $670k]

represents the state of Iowa Higher Educational Institutions on the OSG consortium

GROW was founded in 2003 by Shaowen Wang, a professor of Computer Science at U of Iowa

Looks hopeful for us, but …

Shaowen is leaving for Urbana-Champaign and it's not clear whether U Iowa will continue supporting GROW

I have been in contact with Paul Gray at UNI and we will try to work together
