

General NEWS

TC/TL (10 Feb 2011), P. Bloch

- Training statistics within the Department from 2010, note that the number of days includes internal and external training for staff, fellows, students, incl. Marie-Curie. (not incl. users, not incl. travel paid by groups). See attached file by N. Knoors.

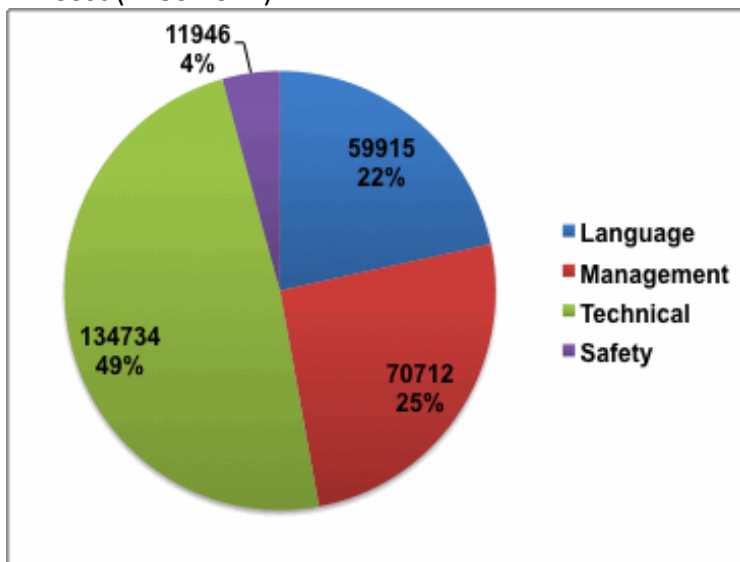

• Requests (~700)

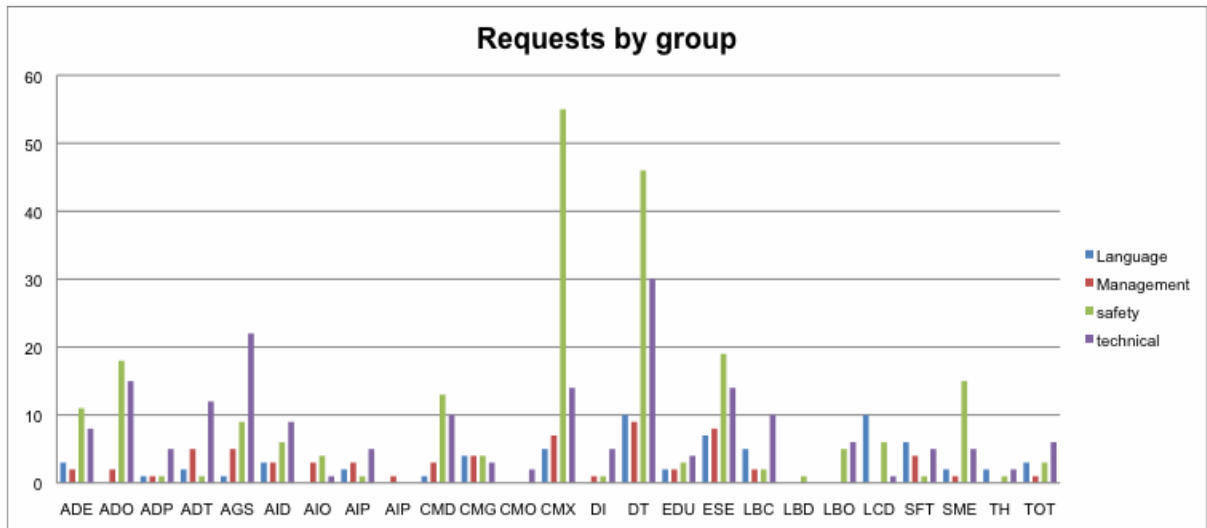

Days (~1500)

Days

- Cost (~280 kCHF)

- Problem of conference room bookings cancelled by large experiments. Should in principle only concern B40 / B42, but was also occasionally done for other buildings. P. Bloch proposes the rule that pre-bookings become definite 3 weeks before the event. No forced cancellation possible anymore.

DT NEWS

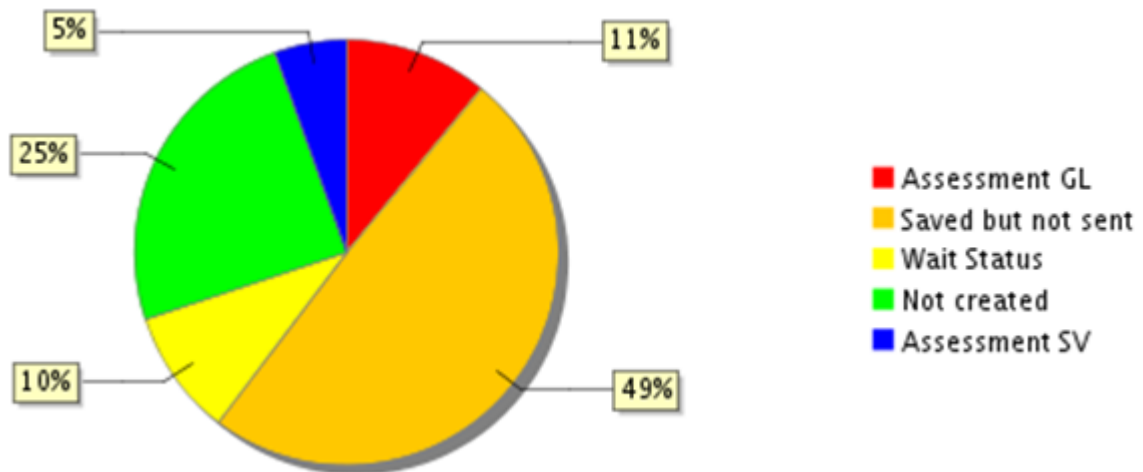

- **Personnel:**
 - Job description for LD job published: Electronics/mechanics technician, bondlab & QART lab (replacement A. Guipet). CP B or C.
 - Job description prepared for LD job (initially 2 years) for Eng/Phys. Upgrade of irradiation facilities. First 2 years financed by FP7 AIDA.
- **EDIT School.** It's over! Great job by many DT people. Feedback by students very positive. More detailed analysis to be done. Balance effort vs return ?
- **DT outing.** This evening. 32 participants.
- **DT Annual Report.** Reminder: Contributions by end of the month.

MARS (Philippe Bloch / Nathalie Knoors)

- 50% reduction on extra steps for this year – Only 125 CERN wide, instead of 250 (as last year). Same for next year and nothing extra in 2013. It will make things difficult in PH as the extra steps were very useful to help solve problems.

MARS (DT specific)

Current status

DT proposals submitted:

- 5 SB change proposals (in CP B-C)
- 1 CP change proposal (to CP B)
- 3 CP change proposals (Ec to Fa)
- 2 CP change proposals (Fb to Fc)

SB changes Fa-Fb are treated as quasi-automatic
