

News & communications

- MuCol activities of beneficiaries have to be reported:
 - CERN and INFN are doing timesheets. UNIPD will write reports documented by the presentations done at these meetings.

- Next week, May 23rd next MuCol management meeting:
 - Approval of tasks leaders
 - **Task 2.1** Design of detector configurations at $\sqrt{s}=3$ TeV and $\sqrt{s}=10$ TeV with the optimised interaction regions (UNIPD) -> [Davide Zuliani](#)
 - **Task 2.2** Design and implementation of event reconstruction algorithms in 5D at $\sqrt{s}=3$ TeV and $\sqrt{s}=10$ TeV (DESY) -> [Federico Meloni](#)
 - **Task 2.3** Evaluate detector performance at different collision energies by using major physics processes (INFN) -> [Massimo Casarsa](#)

News & communications

- We have a CVMFS at CERN, since yesterday.
- Our activities and studies will be done in a wide collaboration: people in MuCol, people who have signed or not MoC. In order to proceed without issues policies are needed. I think we need to define the authors list, the procedures for approval and publication of results and access to our “data” = BIB. I asked the management to start a discussion on that in order to approve policies at the CB.
