Core event:

- 11 keynotes
- 15 sessions
- welcome reception
- welcome/closing

Satellite events:

- Public lecture (tuesday evening)
- Mapping workshop (during breaks)

Recordings of the event

- We intend to release recordings of as much of the event as possible
 - The entire event was recorded, but we need speaker consent
 - Keynotes: the speaker needs to give consent
 - Panels: all of the speakers+conveners need to give consent
- We expect that we will be able to upload most, but not all, of the week
 - Once done, we will send an email to all registered participants
 - We will also post on social media; follow us!
 - Twitter/X: <https://twitter.com/AI2S2Symposium> and hashtag #AI2S2
 - LinkedIn "company": <https://ch.linkedin.com/company/ai2s2>
 - LinkedIn group: <https://www.linkedin.com/groups/12886608>

Some statistics for 2023

- **324 in-person registrations**

- 47% University of Geneva
- 23% other academic institutions
- 13% society
- 9% without a listed affiliation
- 8% industry

- **More than 500 remote registrations**

- Just under 300 before the event started
- More than 200 additional during the week

- Have not removed overlaps yet, expect 700-800 total registrations

From the registration perspective, a very successful event

Do you want to do more?

- A UN Datathon is being organised from November 3 to 6
 - The UniGe Sustainable Development Goal (SDG) Solution Space is one of the locations hosting events, from November 4 to 5
- Could be a nice occasion to follow up in practice on any collaborative ideas with UN partners for AI applications in data science
 - See [the website](#) or contact [Francois Grey](#) for more info

Thank you to Vilius

For those in person, you have certainly seen Vilius

- He was followed the website design, and led social media activities
- He handled A/V with me all week long, and helped coordinate helpers
- He has contributed in many other ways

Thank you for all of your help!

Thank you to Campus Biotech

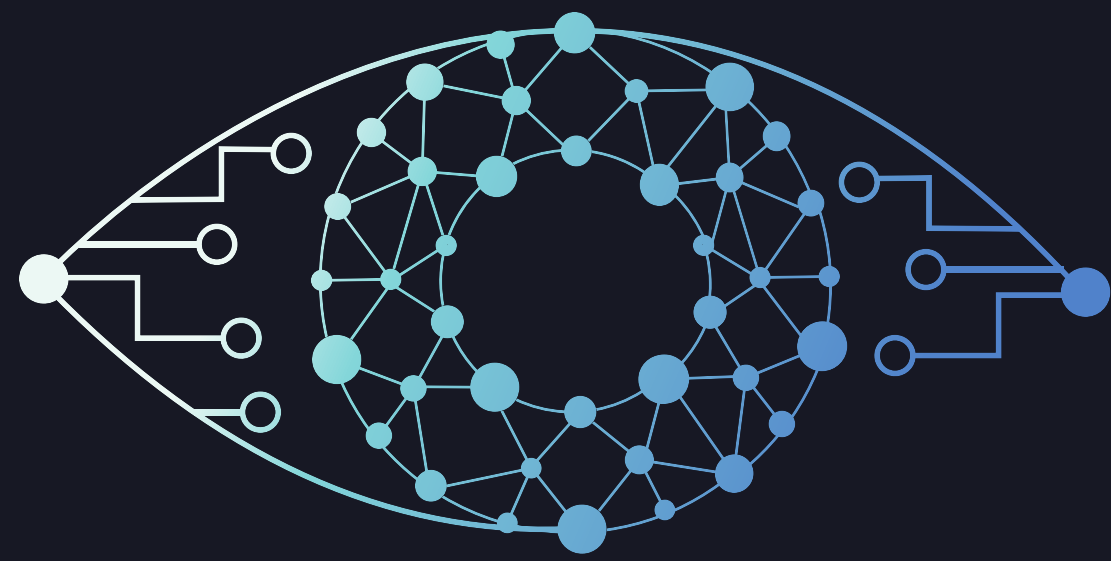

- Thank you very much to our hosts, Campus Biotech!
- It was a lovely venue, with great support and catering

Thank you for participating!

- This event is nothing without you, the participants
- I was very happy with the calibre of discussions this week
- Thank you for supporting interdisciplinary AI activities!
