

Session Program

8-12 Jan 2024

**XXX Cracow EIPHANY Conference on
Precision Physics at High Energy Colliders**

Higgs/Future

Auditorium Maximum, Aula Mała

Tuesday 9 January

09:00

Higgs/Future

Session | **Location:** Auditorium Maximum, Aula Mała | **Convener:** Michal Szeleper

09:00–09:30 **Higgs boson measurements at CMS**

Speaker
Michal Bluj

09:30–10:00

Precision measurements of Higgs boson properties with the ATLAS experiment

Speaker
Martina Javurkova

10:00–10:30

Search for exotic decays of the Higgs boson into long-lived particles with jet pairs in the final state at future colliders

Speaker
Marcin Kucharczyk

10:30–11:00

Correctly counting the number of light neutrino types with photons

Speaker
Graham Wilson

11:00
