New Security Trust and Policies - for WLCG and other Research Infrastructures

Wednesday 18 October 2023 14:50 (25 minutes)

Many years ago, the Joint WLCG/OSG/EGEE security policy group successfully developed a suite of Security Policies for use by WLCG, EGI and others. These in turn formed the basis of the AARC Policy Development Kit, published in 2019. Many infrastructures have since used the template policies in the AARC PDK but found they had to modify them to meet their needs. The Policy Templates are now being modified, taking feedback from others into account, to new template versions in the WISE Community Security for Collaborating Infrastructures working group. In WLCG, many of the security policies are now in need of updating and revision. The work to produce new policy templates and to update WLCG security policies will be presented. This is essential for building trust within WLCG and also externally with other Infrastructures.
