The CERN IT Linux strategy (after the recent events in the EL eco-system)

Thursday 19 October 2023 09:00 (25 minutes)

In this presentation, we will summarise the recent events in the Enterprise Linux eco-system, starting with Red Hat's announcement to stop publicly sharing the RHEL source code and the reaction of the clone rebuilds. We will examine the impact the new situation has on the CERN use cases and the CERN IT Linux strategy.
