

Welcome to HEPiX Autumn 2023

Peter van der Reest
European co-chair

University of Victoria
Canada

2023-10-16

Welcome!

- we are more than happy to greet you all today
 - after a moderate start of registrations and an interesting end sprint, we are now at over 70 participants here at the University of Victoria
 - and also a growing number of remote participants, 25 registered this morning
 - there are over 50 contributions lined up
- and a big thank you to Randy for heading the local organisation and actively helping us in creating a varied programme for you this week

Programme

- another not all-in-person meeting
 - some of our colleagues did not receive their visa in time to join us here
- All regular tracks are present, and yet another Linux BoF on Thursday
- Workshop will be running from Monday through Friday
 - Full program available online –
www.hepix.org will always point you to the current event
 - Please check for updates in the timetable (force-reload in browser!)
- Sessions are now adhering to local venue time – running between 09:00 and 18:00h
- All sessions will be streamed – at best effort

An in-person meeting...

with streaming through Zoom...

...calls for video conference etiquette

- Mute your microphones at all times during the presentations
- Please have your video stream disabled unless you are the speaker or the session chair
- we will be taking questions in the auditorium first, then switch to online participants. The session moderators will read out questions from the chat (so you will have time to type)
- Please only use the chat for questions and urgent matters like bad audio or no slides visible etc

A streamed meeting...

also requires some effort from the speakers:

- with our current setup, the speaker will only be visible through the presentation laptop
- and audio will only be picked up by the stand microphone (we are working on that)
- and please make sure that your final slides are uploaded to Indico before the preceding break at the latest!

for participants asking questions:

- please use the microphones distributed around the room

Group Photo

- We will have a photo session on Wednesday before lunch
- For now, we plan to take the photo just outside the Student Union Building
 - when rain is too heavy, we'll improvise

Finally

Have a great HEPiX workshop
