

Session Program

24-26 May 2024

Mediterranean
Thematic Workshops
in Advanced Molecular Imaging

MEDAMI 2024 - Inflammation and Infection Imaging

***Advances in multimodality imaging to increase
our understanding of the inflammation's role in
healthy and diseased tissue***

Saturday 25 May

08:30

Advances in multimodality imaging to increase our understanding of the inflammation's role in healthy and diseased tissue

Session | **Location:** Palazzo Pancaldi, Livorno, Italy | **Convener:** Nicola Belcari

08:30–08:50

Advances in preclinical MR molecular imaging of inflammation

Speaker

Prof. Enzo Terreno

08:50–09:10

Advances in Inflammation Imaging: Optical Techniques in Mesoscopic and Macroscopic Regimes

Speaker

Prof. Matija Milanic

09:10–09:30

Exploring Inflammatory Pathways: Optical Nanoscopy Reveals Cytokine-Induced β -Cell Stress Signatures

Speaker

Luca Pesce

09:30–09:50

TSPO (18F-VC701) PET imaging in neuroinflammation for Parkinson disease

Speaker

Sara Belloli

09:50–10:10

Euro-Biolmaging ERIC: Open access imaging services enable cutting-edge research - an ISIDORE project evaluating COVID-19 effects with mouse brain imaging

Speaker

Susanne Vainio

10:10
