

Recent CP violation and lifetime results from CMS

Monday 27 May 2024 14:30 (15 minutes)

Recent results on CP violation in charm and beauty sector, as well as lifetime measurements, by the CMS experiment at the LHC are presented. The analyses are based on 13 TeV pp collision data.

Primary author: YUAN, Li (Beihang University (CN))

Co-author: SERGEYCHIK, Vladimir (Moscow Institute of Physics and Technology State University (RU))

Presenter: SERGEYCHIK, Vladimir (Moscow Institute of Physics and Technology State University (RU))

Session Classification: Parallel - 3

Track Classification: CP violation in hadrons and leptons, EDMs
