

22nd Conference on Flavor Physics and CP Violation (FPCP 2024)

Monday 27 May 2024

Parallel - 1 (14:00 - 15:30)

-Conveners: NAKORN THONGYOI

time	[id] title	presenter
14:00	[99] Exploring type-I seesaw under S_3 modular symmetry	BEHERA, mitesh
14:15	[87] Neutrino masses and mixing in an inverse seesaw (2,3) model augmented with S_4 modular flavor symmetry	KALITA, Raktima
14:30	[67] Leptogenesis in a Left-Right Symmetric Model with double seesaw	Mr PATEL, UTKARSH
14:45	[66] Neutrino magnetic moment and inert doublet dark matter in a radiative seesaw scenario	MOHANTA, Rukmani
15:00	[78] Study on Leptogenesis in texture zeros of minimal inverse seesaw	GAUTAM, Nayana
15:15	[65] Study of neutrino mass matrices with vanishing trace and one vanishing minor	DEY, SANGEETA
