

# Status of, and recent data results from, the LHC Run 3 milliQan detector

*Friday 19 July 2024 16:00 (15 minutes)*

We will present the operational status of the LHC Run 3 milliQan detector un, whose installation began last year and was completed during the 2023-4 YETS, and is being commissioned at the time of submission. We will also show any available initial results from data obtained with Run 3 LHC Collisions.

## Alternate track

1. Dark Matter Detection

## I read the instructions above

Yes

**Authors:** HILL, Chris (Ohio State University (US)); CARRIGAN, Michael William (Ohio State University (US))

**Co-author:** HAAS, Andrew (New York University)

**Presenter:** CARRIGAN, Michael William (Ohio State University (US))

**Session Classification:** Operation, Performance and Upgrade (incl. HL-LHC) of Present Detectors

**Track Classification:** 12. Operation, Performance and Upgrade (incl. HL-LHC) of Present Detectors
