

# Spectroscopy studies with B- $\rightarrow$ DDX decays at LHCb

*Saturday 20 July 2024 09:00 (15 minutes)*

The latest studies of beauty meson decays to open charm final states from LHCb are presented. Several first observations and branching fraction measurements using Run 1 and Run 2 data samples are shown. These decay modes will provide important spectroscopy information and inputs to other analyses.

## Alternate track

1. Quark and Lepton Flavour Physics

## I read the instructions above

Yes
