

# CERN's strategy for an environmentally responsible research

*Friday 19 July 2024 15:00 (15 minutes)*

As the World's largest particle physics research laboratory, CERN strives to deliver world-class scientific results and knowledge, while embedding environmental responsibility and sustainability in its activities. This contribution will present CERN's approach for environmentally responsible research, outlining the present footprint of the Organization and the current projects aimed at minimising the laboratory's impact on the environment across its accelerators, experiments as well as its site and campus facilities. Insights of environmental objectives at the Horizon 2030 and beyond will also be discussed.

## Alternate track

### I read the instructions above

Yes

**Primary authors:** DELILLE, Benoit (CERN); KLEINER, Sonja (CERN)

**Presenter:** KLEINER, Sonja (CERN)

**Session Classification:** Sustainability

**Track Classification:** 18. Sustainability (accelerators, detectors, computing)
