

2nd International Workshop towards the Giant Liquid Argon Charge Imaging Experiment (GLA2011)

Thursday 9 June 2011

Improvements of the Liquid Argon Charge Imaging technology (II) (08:30 - 10:00)

time	[id] title	presenter
08:30	[47] Development and experience with very high voltage feed-throughs	Prof. WANG, Hanguo
08:50	[24] Status of LAPD	Dr REBEL, Brian
09:20	[32] Status and plans with 6m3 at CERN	Dr MARCHIONNI, Alberto
09:40	[48] Liquid Argon Purification Studies using a Novel Recirculation System	Dr MAVROKORIDIS, Kostas
