

Underground visit of the CMS experiment

Tuesday 19 December 2023 09:00 (1h 15m)

Safety information for the visitors: closed, flat or block-heeled shoes are required for the site visits (mesh flooring). Hard hats will be provided.

Access to underground areas is prohibited for pregnant women and for persons equipped with any of the following: pacemaker, defibrillator, electronic medicine dispenser, hearing aid or any ferromagnetic implant. Please let us know if this affect any member of the visitor group.
