

# Copernican Academy

The Copernican Academy is a new institution in the system of Polish science.

It is an international corporation – it consists of half Polish and half foreign scientists.

The key tasks of the Academy include:

- awarding Copernican Prizes,
  - supervising and supporting the activities of
  - the Nicolaus Copernicus School,
  - coordinating the International Copernican Academy Ambassadors program,
- and  
organising the World Copernican Congress

(1473-1543)
