CERN School of Computing

✉ Computing.School@cer...

The 13th **Thematic** CERN School of Computing (tCSC **security 2023**) will take place on **October 8- 14, 2023**. The theme of the school is "**Security of research computing infrastructures**" - see the academic programme for more details.

The school is proposed to people working in academia and research institutes, who as part of their job need to ensure security and resilience of computing resources they manage, and want to be prepared to detect and handle possible security incidents.

This school is organized by CERN in collaboration with the [University of Split](#). **The school will take place in Split, Croatia**, and be hosted at the Mediterranean Institute For Life Sciences (MEDILS) Conference Centre. The Centre is a historical renovated building situated in a wooded and landscaped park located on the Adriatic Sea coast, a few kilometers from the centre of Split.

**Applications are closed.**
