Recent BABAR measurements of hadronic B branching fractions

Friday, 12 August 2011 11:14 (20 minutes)

We report on recent results of measurements of hadronic B decay branching fractions from BABAR. These results include $B^0 \rightarrow D^0 h^0$ (where h^0 is a neutral hadron), $B \rightarrow D^0 D^0 K$, $B \rightarrow D^0 \bar{p} p$ and $B \rightarrow D^{*0} K_S^0$.
