Symmetries of QCD

Wednesday 28 August 2024 17:10 (40 minutes)

I will review classical chiral symmetries of QCD and a new chiral spin symmetry, which is a symmetry of the confining electric part of QCD. I will discuss implication of these symmetries for hadrons and for QCD phase diagram

Internet talk

No

Is this an abstract from experimental collaboration?

No

Name of experiment and experimental site

unknown

Is the speaker for that presentation defined?

No

Details

i could not submit without filling in last three fields
