Type: **Talk**

## **B physics, rare decays (CMS)**

*Monday 2 September 2024 12:20 (20 minutes)*

The CMS experiment plays a key role in flavour physics, particularly in the search for rare decays. This is made possible by its excellent performance and dynamic trigger configurations. The most relevant and recent results on beauty and charmed mesons decaying into muons will be presented.

### **Internet talk**

No

### **Is this an abstract from experimental collaboration?**

Yes

### **Name of experiment and experimental site**

CMS

### **Is the speaker for that presentation defined?**

Yes

### **Details**

Giacomo Fedi, Imperial College, UK

**Author:** FEDI, Giacomo (Imperial College (GB))

**Presenter:** FEDI, Giacomo (Imperial College (GB))

**Session Classification:** High Energy Particle Physics

**Track Classification:** Main topics: High Energy Particle Physics
