## **Inclusive Precision QCD in the High-Energy Domain**

*Thursday 29 August 2024 10:45 (45 minutes)*

A survey is given on the current status of the theoretical description of unpolarized and polarized deep-inelastic scattering processes in Quantum Chromodynamics at large virtualities.

### **Details**

**Is the speaker for that presentation defined?**

**Name of experiment and experimental site**

**Is this an abstract from experimental collaboration?**

### **Internet talk**

**Presenter:** Prof. BLUEMLEIN, Johannes

**Session Classification:** Workshop on "Half a Century of QCD"
