

## WG3: flavour in the lepton sector

*status*

| topic                 | convener       | progress               |
|-----------------------|----------------|------------------------|
| - LFV theory          | Raidal         | some progress          |
| - LFV experiment      | van der Schaaf | not known              |
| - EDMs & g-2          | Semertzidis    | plan for next meeting  |
| - CP(T) tests         | Bigi           | plan                   |
| - lepton universality | van der Schaaf | listen to this meeting |

- Two-hour discussions on Monday and Wednesday morning.
- Planning depends on who is around then.
- We should also start to distribute work for the write-up.
