

2024 CAP Congress / Congrès de l'ACP 2024

Tuesday 28 May 2024

(DPMB) T3-3 Biomolecular Condensates | Condensats biomoléculaires (DPMB) - SSC Rm 2024 (cap. 137) (16:15 - 17:45)

time	[id] title	presenter
16:15	[4553] The intrinsically disordered variable domain from dynamin-related protein 1 promotes liquid–liquid phase separation that enhances dynamin assembly and its interaction with cardiolipin-containing membranes	HARDEN, James
16:45	[4243] Retinal protein deposits identified using polarized light, as biomarkers of multiple neurodegenerative brain diseases	Prof. CAMPBELL, Melanie CW
17:15	[4309] (G*) Significant Effects of Protonation on the Nature and Kinetics of Isomerization in Molecular Azo Photoswitches	HILLEL, Coral
17:30	[4240] (G*) Optical fiber holder for FLASH dosimetry at a medical cyclotron	HOHNHOLZ, Janina
