**(DCMMP) M2-7 Soft Condensed Matter II | Matière condensée molle II (DPMCM) - PAB Rm 106 (cap. 96) (2:15 PM - 3:45 PM)**

-Conveners: Rachael Mansbach

time	[id] title	presenter
2:15 PM	[4329] Manipulating the Dynamics of Confined Polymers	DENNISTON, Colin
2:45 PM	[4331] (G*) Fully three-dimensional dynamical self-consistent field theory for dendritic phytoglycogen nanoparticles	MORLING, Benjamin
3:00 PM	[4140] Entropic force of cone-tethered polymers interacting with a planar surface	POLSON, James
3:15 PM	[4264] (G*) Exciton recombination at the poly[2-(3-thienyl)ethyloxy-4-butylsulfonate]-sodium bathocuproine (PTEBS:BPC) interface and its application to organic solar cells	Ms WEI, Xin
3:30 PM	[4422] Deep Generative Modeling of Infrared Images Provides Signatures of Aging and Cracking in Cross-Linked Polyethylene Pipe	DUTCHER, John
