

## Symposium on Science at PAUL (Paarl Africa Underground Laboratory)

Contribution ID: 20

Type: **not specified**

# The Paarl Africa Underground Laboratory - a status report

*Monday 15 January 2024 10:00 (40 minutes)*

The establishment of the Paarl Africa Underground Laboratory (PAUL) off the Huguenot Tunnel, in the Du Toitskloof Mountains, between the towns of Paarl and Worcester in the Western Cape Province, South Africa is proposed. The PAUL conceptual design, engineering design guidelines, project timelines, critical milestones and costing are discussed. An overview of results from a peer-review of the science case for PAUL is also presented.
