

Symposium on Science at PAUL (Paarl Africa Underground Laboratory)

Contribution ID: 36

Type: **not specified**

PAUL from the ANDES perspective (Remote talk)

Wednesday 17 January 2024 17:47 (30 minutes)

I'll discuss my personal perspective on PAUL based on the last 12 years process of the ANDES initiative. I will focus on a potential design for the underground laboratory, and on a specific science case: the search for daily modulation of potential dark matter signals.
