

Session Program

14-18 Jan 2024

Symposium on Science at PAUL (Paarl Africa Underground Laboratory)

Neutrino Physics

Du Kloof Lodge, Du Toitskloof Mountains

Wednesday 17 January

09:00

Neutrino Physics: Neutrino Physics

Session | **Location:** Du Kloof Lodge, Du Toitskloof Mountains | **Convener:** Fairouz Malek

09:00–09:25

Neutrino and feebly interacting particle searches at the LHC

Speaker

Claire Antel

09:28–09:48

Specialized double beta decay experiments and technologies for deep underground laboratories

Speaker

Ivan Stekl

09:51–10:11

R2D2: a xenon TPC for neutrinoless double beta decay search

Speaker

Fabrice PIQUEMAL

10:14–10:34

A request for a study of beta-decays and the ENIGMA project

Speaker

Fedor Simkovic

10:34
