

Session Program

29 November 2023 to 1 December 2023

ISOLDE Workshop and Users meeting 2023

News from other facilities

CERN, 503/1-001 - Council Chamber

Wednesday 29 November

16:00

News from other facilities

Session | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Elias KHAN

16:00–16:25 **Unlocking Precision Mass Measurements with the Rare-RI Ring**

Speaker

Dr Sarah NAIMI

16:30–16:42

First results from ATLANTIS - A new collinear laser spectroscopy setup at Argonne National Laboratory

Speaker

Bernhard Maaß

16:45–16:57

ISOL-like beams of ^{22}Al and ^{26}P at FRIB

Speaker

Erik A. M. Jensen

17:00–17:12

In-gas-jet laser spectroscopy with S3-LEB, status and perspectives

Speaker

Wenling Dong

17:15–17:27

Extremely large oblate deformation of the first excitation in ^{12}C : a new challenge to modern nuclear theory

Speaker

Cebo Ngwetsheni

17:45
