

Session Program

29 November 2023 to 1 December 2023

ISOLDE Workshop and Users meeting 2023

HIE-ISOLDE I

CERN, 503/1-001 - Council Chamber

Thursday 30 November

16:15

HIE-ISOLDE I

Session | **Location:** CERN, 503/1-001 - Council Chamber | **Convener:** Frank Wienholtz

16:15–16:40

Recent results from the Miniball spectrometer

Speaker

Frank Browne

16:45–16:57

Gamma-ray spectroscopy of neutron-rich Sb isotopes by cluster transfer reactions

Speaker

Simone Bottoni

17:00–17:12

The first TDRIV g-factor measurement on a radioactive ion beam: ^{28}Mg

Speaker

Konstantin Stoychev

17:15–17:27

Combined conversion electron and gamma-ray spectroscopy of neutron-deficient Hg isotopes utilising the SPEDE spectrometer

Speaker

Joonas Kalervo Ojala

17:30–17:55

Scattering Studies at the SEC (XT03) beamline at HIE-ISOLDE

Speaker

Maria Jose Garcia Borge

18:00
