# LanDB API: REST release / SOAP shutdown

Replacement of the LanDB API

- Actively developing the REST API
  - Set management (complete)
  - DNS zone/record management (complete)
  - Devices (complete)
  - Search endpoints
  - IP addresses (on-going)

Objectives

- All features available by the end of Run 3
- Support user migration during LS3
- Shutdown of the SOAP API by the end of LS3

2024	2025	2026	2027	2028	2029	
Run 3			LS3			Run 4
