

ITN event with Manchester Physics Society [Niels Bohr Conference Room]

The event is intended as an information event for final year undergraduates on what we do in the network, and how to apply to ITNs. There will be a general introduction to the network and to ITNs in general by the Coordinator, and some of the ESRs will give brief verbal reports to the undergraduates. The last 30-45' will be Q&A and mingle.

Session Classification: SMARTHEP Annual Meeting
