

ISVHECRI 2024

Puerto Vallarta, Mexico

8 – 12 July 2024

ISVHECRI 2026 LECCE (Italy)

**we would like to thank the International
Advisory Committee for accepting our proposal**

Lorenzo Perrone and Daniele Martello (University of Salento and INFN Sezione di Lecce)

Hosting Institutions

Università del Salento

UNIVERSITÀ
DEL SALENTO

Istituto Nazionale di Fisica Nucleare
INFN (Sezione di Lecce)

Istituto Nazionale di Fisica Nucleare

The Department of Mathematics and Physics host about a hundred of affiliated scientists working in cooperation with the researchers of the National Institute of Nuclear Physics (INFN) in a wide range of physics disciplines, with a long tradition in cosmic ray, neutrino and particle physics dating back to the mid 1980s.

Astroparticle physics & Astrophysics

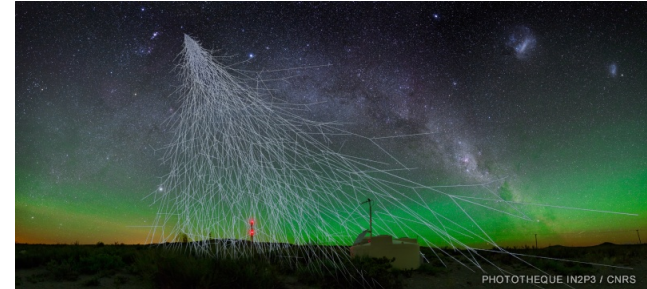

Cosmic ray physics at the ground and in space with the Pierre Auger Observatory, DAMPE/HERD, SABRE, DUNE; X-ray measurements and the EUCLID consortium

Theoretical physics

QCD, field theory, neutrino oscillation and dark matter

Fundamental physics

ATLAS collaboration at CERN

Destination Lecce!

“If Puglia were a movie, Lecce would be cast in the starring role”

Lonely Planet guide

Lecce is located in the middle of the southern end of Apulia region, in the “heel” of the Italian boot. Its province extends over the Salentinian peninsula, bordered by more than 200 km of coastline, with alternating beaches and cliffs. Lecce, with its about 95000 inhabitants, has an historical centre of considerable interest, coming back to the 17th century, representing a triumph of the unique Baroque style (Barocco Leccese).

How to reach Lecce:

- **by plane - Brindisi airport (BDS) ~ 40 km from city centre**

main companies (ITA SwissAir) in connection with Rome and Milan and low cost companies (Ryanair – Easyjet – Wizzair). BARI airport at 160 km is an alternative

Europe ~2/3 h , US & Asia ~ 12h, Latin America & Australia ~ 15 - 20 hr

- **by train – Lecce central station**

Several fast trains per day run from Rome (~ 5.5 hr) and from Milan (~9.5 hr)

- **by car**

via A1 / A14 (highways and fast roads) from Rome 600 km

Services and facilities in Lecce

Conference facilities:

A wide offer of conference facilities is available. We have not yet made a decision on this, but we are considering a number of options, with a preference for buildings located close to or in the city centre, so that participants can enjoy the lively and colourful environment of the city centre.

Accommodation:

Several large hotels are available in the city centre (typical costs between 80 and 150 Euro per night) but, more interestingly, a hundred of 'Bed and Breakfasts' (typical costs between 60 and 150 Euro per night) can offer very attractive accommodation options in the historic centre. Most of them are housed in restored historical buildings.

Restaurants:

In the city centre, one is spoilt for choice when it comes to bars and restaurants (light lunch between 15 and 25 Euro and full dinner between 30 and 60 Euro)

Lecce highlights

Historical centre

Piazza Duomo e Seminario, Basilica di Santa Croce, Anfiteatro romano, teatro romano, Castello di Carlo V

Museums

Sigismondo Castromediano, MUST, Museo della cartapesta, Museo Ebraico, Museo Ferroviario

Surroundings

Cerrate, Galatina Nardò Otranto

Beaches and natural beauties

Gallipoli, Porto Cesareo, Porto Selvaggio, Torre dell'orso Sant'Andrea, Otranto, Santa Cesarea, Porto Badisco, Santa Maria di Leuca..

Culinary experience

Pasticciotto e caffè leccese, rustico, ciceri e tria

looking forward to seeing you in Lecce

Estimated time: 1 week Mon-Fri Mid July 2026

THANK YOU!
