2. Set IP to automatic (DHCP). This is usually the default setting, so you may probably skip this step;
3. Open your browser and try to access any external website. You will be automatically redirected to the page <https://wifi.ist.utl.pt/index.php>. Follow the link 'Web based login' at the top of the page concerning short-time, conference and meetings accounts. Enter the following username/password when requested

Username: PLANCK2024

Password: GymEwd

4. After step 3 you may freely browse and access the Internet. You may need to repeat the above steps if you close your browser or if the connection times out.

- **INFORMATION FOR SPEAKERS**

The duration of PLANCK2024 talks is 25min+5min for invited plenary talks and 15min+5min for parallel talks. The timetable is available at:

<https://indico.cern.ch/event/1323379/timetable>

In all rooms there will be a computer where the talks will be uploaded to. **You will not be able to use your own laptop to present your talk.** The preferred format for your file is PDF. If you wish to use Microsoft PowerPoint (PPT) be sure that there will be no incompatibility issues with the fonts. Two ways of avoiding such problems are either to save your PPT file with the “embedded fonts” options or to convert your file to PDF.

The final version of your talk file should be uploaded directly on Indico as material of your contribution. If you have any problem in uploading your talk on Indico (and, please, only in this case) you can send us your file to planck2024talks@gmail.com: In all cases, the file should be available until (at least):

- **The day before your talk, for talks in the morning**
- **The morning coffee break of the day of your talk, for talks in the afternoon**

If for any reason you have some problem with sending your file to us, contact the conference desk or one of the organisers (our PhD students will be in charge of organizing all talks in each room laptop). We suggest that you bring a memory stick with the file of your talk, just in case...
