

Foundations of Quantum Physics beyond Bell: Celebrating 60 years of Bell's theorem

Contribution ID: 4

Type: **not specified**

John S. Bell Natural Philosopher

Tuesday 16 April 2024 18:00 (45 minutes)

In his contributions to the foundations of quantum mechanics, John S. Bell turned out to be also a true natural philosopher, sensitive to the conceptual implications of physics. In my talk, I will focus on some aspects of the ideal dialogue that Bell developed with Albert Einstein and Niels Bohr, two of the main natural philosophers of the twentieth century.

Presenter: Prof. LAUDISA, Federico (University of Trento)

Session Classification: Talks
