

# NSF Meta-Workshop: AI to Accelerate Science and Engineering Discoveries (AI2ASED)

Contribution ID: 13

Type: **not specified**

## The Annual Accelerate Conference

*Tuesday 3 October 2023 11:30 (8 minutes)*

In this short lightning talk I will discuss the Acceleration Consortium's annual Accelerate conference, which we ran in 2022 and 2023 in Toronto and are in the early stages of planning 2024 in a different host city. Accelerate spans the entire field of accelerated discovery with AI and automation: computational tools, high-throughput and autonomous experimentation, the ethics of accelerated discovery, and commercialization potential.

**Author:** SUTHERLAND, Brandon (Acceleration Consortium)

**Presenter:** SUTHERLAND, Brandon (Acceleration Consortium)

**Session Classification:** Lightning talk III
