# ESP....Towards an Improved Electrical Risk Management in ATS

**Very ambitious program!**

**40 contributors** appointed in summer 2023 across ATS and HSE!

**Strong collaboration with HSE and safety actors** (ATS DSOs, EP Safety Office, LEXGLIMOS...)

**Project end:** when processes defined and proof-tested

**Full deployment** will be carried out by an operational team

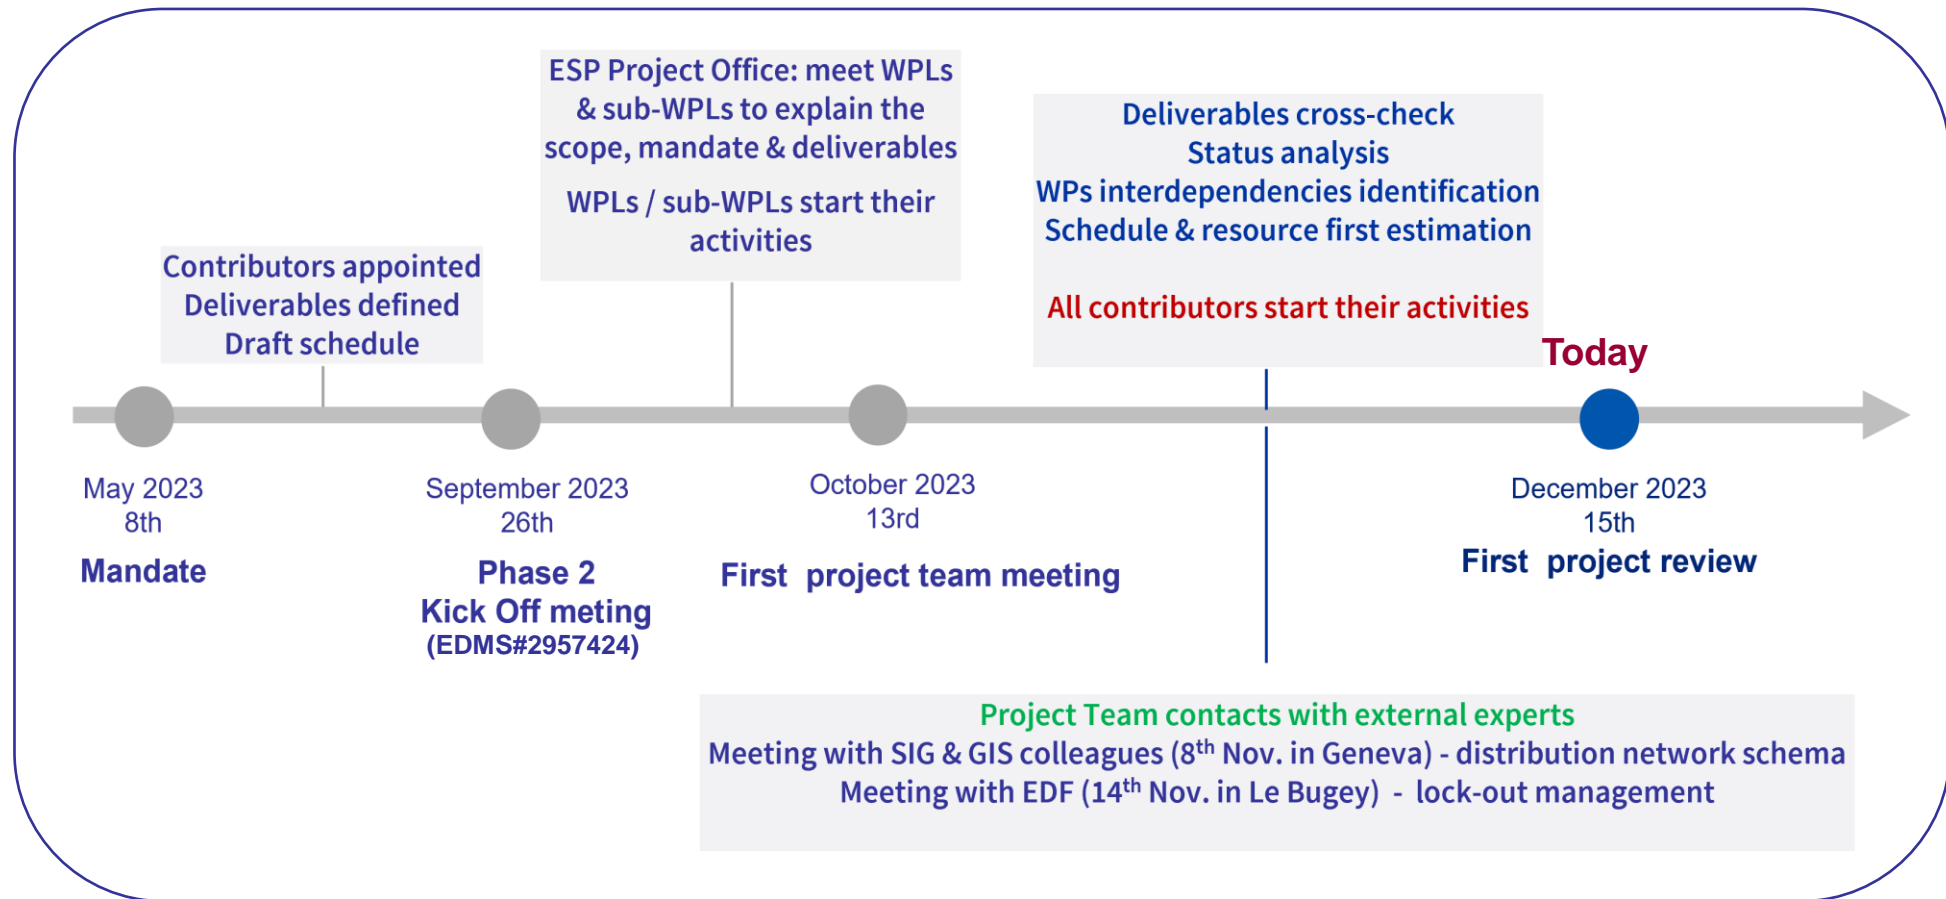

*Accelerators complex*

*ATS projects*

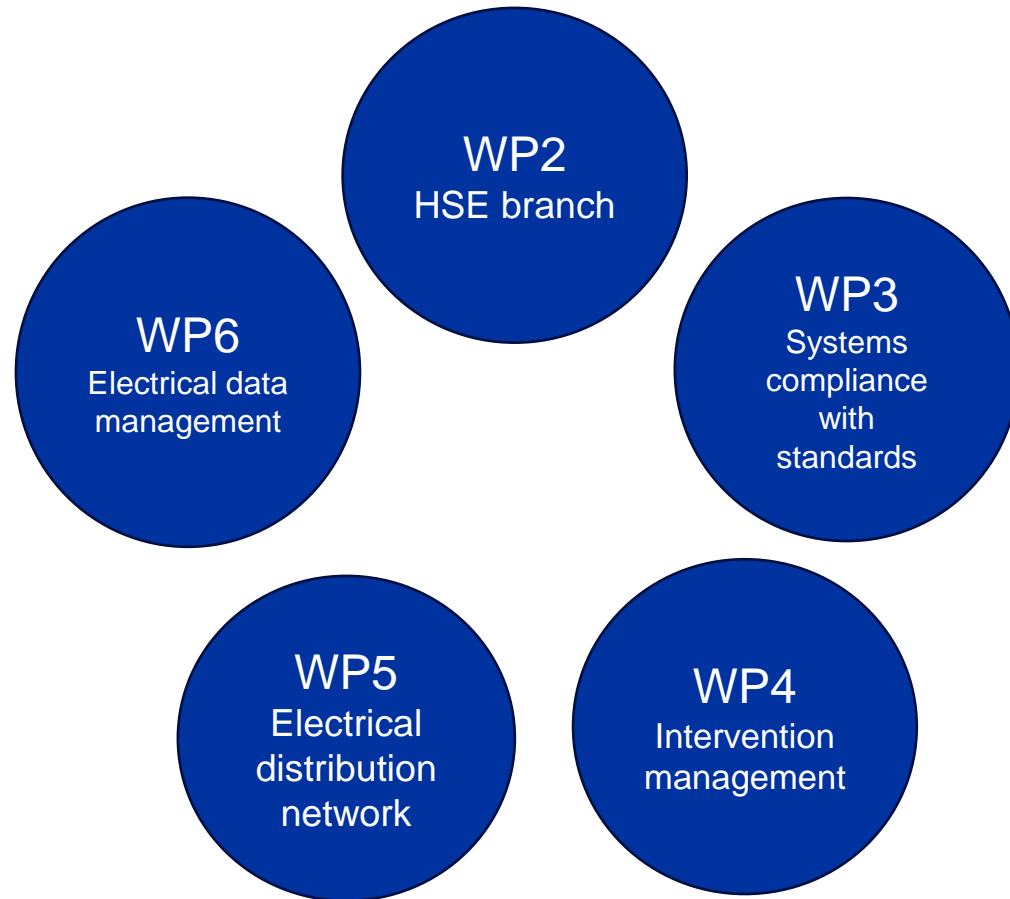

*ATS experimental areas*

*Machine buildings linked to accelerator complex*
