CERNBox turns 10 years old: pitfalls and challenges of building CERN's cloud collaborative platform

Monday 11 March 2024 11:25 (20 minutes)

CERNBox is CERN's flagship cloud collaborative storage platform and it has turned 10 years old. In this talk we'll delve into the main pillars that made this platform a success and the pitfalls and lessons learned of running a multi-petabyte platform satisfying the heterogeneous needs of thousands of scientists.
