Federated groups via OCM

Tuesday 12 March 2024 11:30 (5 minutes)

At SURF, we have a large number of cloud environments. But how can you optimally collaborate when users are spread across multiple environments.

Creating a share with a group is much easier, than with several individuals. Our story how we solve this with federated groups.

Primary author: WEZEPOEL, Tom (SURF)

Presenter: WEZEPOEL, Tom (SURF)

Session Classification: OpenCloudMesh Campfire

Track Classification: Interoperability: protocols, APIs, OpenCloudMesh (OCM)
